Journal of Medical Mycology/Journal de Mycologie Médicale

Société Française de Mycologie Médicale (SFMM)

LIGNE ÉDITORIALE *Overview*

The Journal of Medical Mycology (JMM) / Journal de Mycologie Medicale publishes in English works dealing with human and animal mycology. The subjects treated are focused in particular on clinical, diagnostic, epidemiological, immunological, medical, pathological, preventive or therapeuti c aspects of mycoses. Also covered are basic aspects linked primarily with morphology (electronic and photonic microscopy), physiology, biochemistry, cellular and molecular biology, immunochemistry, genetics, taxonomy or phylogeny of pathogenic or opportunistic fungi and actinomycetes in humans or animals. JMM publishes (guest) editorials, original articles, reviews (and minireviews), case reports, technical notes, letters to the editor and information. The journal is indexed in the main international databases and is accessible worldwide through the ScienceDirect and ClinicalKey platforms.
