Overview

Physica Medica, European Journal of Medical Physics, publishing with Elsevier from 2007, provides an international forum for research and reviews on the following main topics:

- Medical Imaging
- Radiation Therapy
- Radiation Protection
- Measuring Systems and Signal Processing
- Education and training in Medical Physics
- Professional issues in Medical Physics.

Contributions on other topics related to Applications of Physics to Biology and Medicine and in particular related to new emerging fields such as Molecular Imaging, Hadrontherapy, System biology, Nanoparticles and Nanotechnologies, etc. are strongly encouraged.

2. Applicability These terms and conditions shall apply to all offers, proposals and agreements made between Elsevier and any third party or its agent ("the Client") relating to the products and/or services of Elsevier ("the Products and/or Services") and, along with the relevant Elsevier order acknowledgement, shall form the entire agreement between the parties (the "TC"). They supersede any previous supply terms and conditions. For the purposes of this TC "Elsevier" means the company within the Elsevier group that is providing the Products or Services as set out on the relevant order acknowledgement and "Elsevier’s" means the group of companies comprising Elsevier. The terms and conditions shall apply equally to the TC and any amendment and modification to the TC and any part of it. The Client shall be bound by the terms of the TC and any amendment and modification to the TC and any part of it for the duration of the TC and any such amendment and modification to the TC shall be deemed to be incorporated in the TC and the Client’s failure to object to any such amendment and modification to the TC shall be deemed to be a consent to such amendment and modification to the TC. Nothing in the TC will exclude or limit Elsevier’s liability for fraudulent misrepresentation. Where Products are sold to the Client that contain third party software or hardware such sale may be subject to additional licence terms.

3. Offer and acceptance/ Description The Client shall be deemed to be offered an order by Elsevier to purchase the Products and Services subject to the TC. No order placed by the Client shall be deemed accepted until a written acknowledgement of order is issued by Elsevier or (if earlier) Elsevier delivers the Products or issues the invoice to the Client or commences performance of the Services for the Client. Under the TC all Products are accepted subject to availability of the ordered Products. Unless otherwise expressly agreed by Elsevier in writing, Client represents and warrants that it is purchasing Products or Services from Elsevier for its own account and use and not on behalf of any other person or entity. If Client is an agent, it represents and warrants that it is purchasing the Products and Services from Elsevier for the account and use of no more than one identified institutional subscriber as principal or, if it is permitted to order personal subscriptions in a representative capacity, for the account and use of no more than one identified eligible individual subscriber for personal use. Client acknowledges that violation of this representation and warranty clause will impair service for Elsevier. Upon any violation of this representation and warranty, Elsevier shall be entitled to immediate injunctive relief requiring Client to disclose all recipients of any Products or Services from Elsevier, including all actual recipients that have not been previously properly identified by Client. Elsevier shall use commercially reasonable efforts to comply with the provisions of the TC and Services agreed by both parties in the relevant order, including such things as format, printing processes, technical design, size and kind of address file, weights and the like. All drawings, descriptive matter, specifications and advertising issued by Elsevier or any descriptions or illustrations contained in Elsevier’s catalogues or brochures are issued or published for the sole purpose of giving an approximate description of the Products and Services described in them. They will not form part of TC. Publishing errors, including, but not limited to, typographical errors, having no significant effect on the editorial content or design character of the Products and Services, cannot be considered a reason for rejecting delivery, as the case may be, nor shall they vary the quoted price.

4. Execution and modification of order Any modifications to the agreed product or service description, budget or schedule, or set out in the order acknowledgement, may result in an adjustment to the final price and/or delivery schedule at Elsevier’s discretion. If, at the request of the Client, Elsevier renders additional Services in connection with the performance of the TC, Elsevier shall act in the name of, to the account of, and at the risk of the Client. Any dates specified by Elsevier for delivery/performance of the Products and Services are intended to be an estimate and time for delivery/performance shall not be made of the essence by notice. If no dates so specified, delivery/performance shall be within a reasonable time.

5. Prices, terms and currency Unless otherwise agreed by Elsevier in writing the prices for the Products and Services shall be set out in Elsevier’s current price list (whether print or online). All such prices shall be exclusive of any handling, packing, loading, freight, insurance, transport and import/export taxes, duties and any other taxes, levies and charges imposed on the sale or import of the Products or Services by local or national authorities, which shall be charged by Elsevier as applicable. Where applicable, Elsevier shall provide to Client Elsevier’s VAT registration number or other evidence of tax exemption to Elsevier at the time of placing its order. If, under the laws of the territory in which Client is selling the Products, the Client is required to withhold any tax on the amount of the invoice, it shall be within the Client’s sole responsibility to deduct such tax from the total invoice amount and pay the balance to Elsevier. The Client should also be aware that the Client is responsible for paying any tax or other charges levied on the Products or Services by the relevant local or national authorities. The Client shall notify Elsevier if it is required to account for any tax on any payment made to Elsevier. If any provision of the TC is found by any court, tribunal or arbitrator to be invalid, void or unenforceable, the same shall be deemed severable and shall not affect the validity, void or unenforceability of the remaining provisions of the TC and the remainder of such provision shall continue in full force and effect. Failure or delay by Elsevier in enforcing or partially enforcing any provision (or rescission of any breach) of the TC shall not be construed as a waiver of any of its rights under the TC;

6. Conflict of laws The Client shall not engage in piracy, reproduction, or plagiarism of the Products or any other products or services of Elsevier or its affiliates, nor shall it directly or indirectly facilitate any other party to engage in those activities. The Client shall promptly notify Elsevier if it becomes aware of any piracy, reproduction, or plagiarism of the Products by any third party. The Client is solely responsible for collecting from its customers amounts due in respect of its sales of the Products, exercising full control and strictly keeping all of its losses from any uncollected amounts. Delays or failures in obtaining such payments shall not affect the Client’s obligation to make payments to Elsevier under the TC.

7. Intellectual property Copyright and other intellectual property rights in all Elsevier proposals, publications and other Services or Services remain with Elsevier unless otherwise agreed in writing. The rights granted by Elsevier are restricted to use solely by the Client and may not be assigned, transferred or sublicensed without the prior written permission of Elsevier. The rights granted by Elsevier are non-exclusive and for the purpose expressly agreed upon. Any other use shall require the prior written permission of Elsevier. The Client shall not acquire any intellectual property rights in the Products. No part of the Elsevier proposals, publications or Services may be stored in any automated data base and/or reproduced, whether electronically, mechanically, by photocopying, recording or in any other manner or form, without the specific prior written permission of Elsevier.

8. Liability and claims The Client acknowledges that all else being equal, the likelihood of a breach of this TC occurring will be lower the more precisely the Client's requirements are defined. The Client further acknowledges that, if there is any breach of this TC due to reasons within Elsevier’s control, Elsevier’s liability will be limited to the amount charged to the Client, subject to the further limitations set out below. If by reason of labor dispute, strikes, inability to obtain labor or materials, fire or other action of the elements, acts of God, war, riot, embargo, strike, civil or military disturbance, governmental restrictions or appropriation or other causes beyond the control of a party, such party is unable to perform in whole or in part its obligations set forth in this TC, then such party shall be relieved of those obligations to the extent it is thereby unable to perform, and such inability to perform shall not make such party liable to any other party. Any subject matter of force majeure shall use good faith efforts to correct the problem within the time agreed in the TC.
