JSES Reviews, Reports & Techniques

Overview

JSES Reviews, Reports and Techniques is an open access and online-only journal that concentrates exclusively on medical, surgical, and physical research and best practice on treating injury/disease of the upper extremity, including the shoulder girdle, upper arm, and elbow. This publication is an official member of the Journal of Shoulder and Elbow Surgery (JSES) family of journals and is sponsored by eleven leading upper extremity orthopedic organizations globally. Clinically oriented and peer-reviewed, JSES Reviews, Reports, and Techniques provides an international forum for the exchange of information that focuses on clinical and basic science review articles, case reports, and novel surgical techniques.

## Online Publishing Services

Elsevier offers a range of online publishing services tailored to meet the needs of authors, institutions, and organizations. These services provide comprehensive support throughout the publication process, from preparation to dissemination. The following services are among the most popular:

- **Online Manuscript Preparation:** Assistance with formatting, referencing, and other technical aspects of manuscript preparation.
- **Online Image Submission:** Guidance on high-quality image preparation and submission.
- **Online Review Management:** Streamlined review process, including tracking and communication.
- **Online Citations Tracking:** Tools for monitoring citations and impact metrics.
- **Online Open Access:** Options for making your research freely accessible.
- **Online Marketing and Promotion:** Services to increase visibility and reach.

These services are designed to help authors and institutions successfully navigate the modern publishing landscape, ensuring that their research is disseminated effectively and efficiently.
