Overview

*JVS: Vascular Science* publishes the best of "bench-to-bedside" translational research, underlying modern medical, endovascular and surgical investigation and management of vascular diseases. *JVS: Vascular Science* is dedicated to the science and art of vascular medicine, radiology, surgery and endovascular interventions and aims to improve the science underlying the evaluation and care of patients with aortic, arterial, venous and lymphatic disorders by publishing relevant papers that report important scientific advances, test new hypotheses, propose and define new treatments and address current controversies. To achieve the goal of bringing bench research to bedside, the *Journal* publishes original laboratory and experimental clinical studies, as well as review papers that relate to these aims. As an official publication of the Society for Vascular Surgery, the *Journal* also publishes selected papers presented at the Vascular Annual Meeting and the meetings of affiliated vascular societies, as well as original articles from members and non-members.
