Overview

The Journal of Hand Surgery Global Online (JHS GO) is an open access companion title to Journal of Hand Surgery. It is a clinically-oriented, peer-reviewed, international forum for the latest techniques and advances in hand and upper extremity surgery. Published quarterly, it features original articles related to the pathophysiology, diagnosis, and treatment of diseases and conditions of the upper extremity; these include clinical and basic science studies and systematic reviews along with brief communications, case reports, review articles, surgical technique articles, policy papers and guidelines, and letters to the editor. JHS GO is online-only, though reprints of articles may be purchased from Elsevier.

1. Applicability

The terms and conditions apply to all offers, proposals, agreements made by the Client and any third party or its agent ("the Client") relating to the products and/or services of Elsevier ("the Products and/or Services") and, along with the relevant Elsevier order acknowledgement, shall form the entire agreement between the parties (the "TC"). They supersede any previous oral or written agreements between the parties.

2. Payment

Payment in respect of the purchase price due to Elsevier shall be made by the Client to Elsevier on the terms and conditions specified in the order or invoice. Any discount or rebates or other allowances granted by Elsevier in writing shall only be granted on account of prompt payment. Payment is due on the invoice date or, if earlier, on the Closing Date.

3. Delivery

Clients order personal subscriptions in a representative capacity, for the account and use of no more than one identified individual subscriber for valid personal use.

4. Distribution

The formation, existence, construction, performance, validity and all aspects of the TC shall be governed by the law of the corporate domicile of the Elsevier company which is providing the Products or Services. The parties agree to submit to the jurisdiction of the courts in that country.

5. Payment

Failure or delay by Elsevier in enforcing or exercising the rights granted under the TC shall not operate as a waiver of Elsevier's rights under the TC and shall not affect Elsevier's right to assert and enforce such rights at any time thereafter. Elsevier may set off and apply any amounts against the Client's credit balance for any claim, debt or obligation of the Client to Elsevier.

6. Distribution

The TC shall be governed and construed in accordance with the laws the Client is established. The Client shall make all its payments to Elsevier in accordance with the terms of the TC.

7. Intellectual property

If, under the TC, Elsevier delivers or issues the secured title to any material or software to the Client, Elsevier shall not be deemed to have transferred any rights in such material or software to the Client.

8. Liability and claims

The Client is solely responsible for ensuring proposed advertising copy is received at Elsevier in electronic form (or such other form as specified by Elsevier) and within the relevant deadline set by Elsevier (the "Closing Date"). Where copy is received late or not at all, Elsevier will endeavour to do so, although Elsevier will not be responsible for the Client's failure to include the Client's advertising material and/or the Client's failure to include the Client's advertising material at the agreed price.

9. Force majeure

Force majeure or any other cause beyond the reasonable control of the Client or Elsevier for its performance of the TC, whether or not related to the Client or Elsevier or their respective employees, agents or sub-contractors or their respective employees, agents or sub-contractors, including any cause related to or resulting from acts of war, acts of terrorism or any military action, natural disaster, epidemics or other causes beyond the control of the parties, shall be deemed an event of force majeure.

10. Audit

Audit shall mean a review or verification by an independent auditor, appointed by either party, of the Client's records, including the Client's order documents, to verify the Client's obligations to Elsevier under the TC or other agreements with Elsevier.

11. Compliance with laws

The Client's employees, agents, independent contractors, and any third parties hired by the Client, shall perform their obligations under the TC in a manner that is consistent with all applicable laws, rules, regulations, and industry standards, including, but not limited to, anti-bribery, anti-corruption, anti-money laundering, and data protection laws.

12. Restrictive covenants

The Client shall not assign, transfer, or license any right or asset of the Client to any third party without the prior written consent of Elsevier.

13. Governing law

The Client shall not be entitled to make any claim against Elsevier on a basis other than that providing for a legal remedy provided by the local law.

14. General

If any provision of the TC is held to be illegal, invalid, void, or unenforceable, or to the extent of such illegality, invalidity, voidness, voidability, or unenforceability, it shall to the extent of such illegality, invalidity, voidness, voidability, or unenforceability, be nullified and severable and the remainder of such provision shall continue in full force and effect. Failure or delay in exercising or enforcing any provision (or possessing any of the benefits of) the TC shall not be construed as a waiver of any of its rights under the TC.
