Overview

The Journal of Hand Surgery Global Online (JHS GO) is an open access companion title to Journal of Hand Surgery. It is a clinically-oriented, peer-reviewed, international forum for the latest techniques and advances in hand and upper extremity surgery. Published quarterly, it features original articles related to the pathophysiology, diagnosis, and treatment of diseases and conditions of the upper extremity; these include clinical and basic science studies and systematic reviews along with brief communications, case reports, review articles, surgical technique articles, policy papers and guidelines, and letters to the editor. JHS GO is online-only, though reprints of articles may be purchased from Elsevier.
