Genetics in Medicine

Overview

The Genetics in Medicine journal's mission is to enhance the knowledge, practice, and understanding of medical genetics and genomics through publications in clinical and laboratory genetics and genomics, including ethical, legal, and social issues as well as public health. As genetics and genomics continue to increase in importance and relevance in medical practice, the journal will be an accessible and authoritative resource for the dissemination of medical genetic knowledge to all medical providers through appropriate original research, reviews, commentaries, standards, and guidelines.

1. Applicability
These terms and conditions shall apply to all offers, proposals and agreements made up to and including any third party or its agent (the "Client") relating to the products and/or services of Elsevier ("the Products and/or Services") and, along with the relevant Elsevier order acknowledgment, shall form the whole agreement between the parties for the TC. They supersede any previous written or oral agreements between the parties.

2. Execution and modification of the order
Each order for the Products and Services by the Client from Elsevier shall be deemed to be an offer by the Client to Elsevier to supply the Products and Services subject to the TC. No order placed by the Client shall be deemed accepted until a written acknowledgement of order is issued by Elsevier or [Elsevier] Elsevier delivers the Products or issues the invoice to the Client or makes performance of the Services for the Client. All order acknowledgments are subject to availability of the ordered products. Unless otherwise expressly agreed by Elsevier in writing, Client represents and warrants that it is purchasing Products or Services from Elsevier for its own account and is not and shall not be responsible for (whether or not in the Client's name) a representative, or agent or any third party or a company controlled by the Client acting in its name or behalf.
