Laboratory Investigation

Overview

Laboratory Investigation is an international journal owned by the United States and Canadian Academy of Pathology. Laboratory Investigation offers prompt publication of high-quality original research that advances the understanding and classification of human disease. Laboratory Investigation’s scope encompasses research and reviews that elucidate the pathogenesis or classification of human disease, including original mechanistic or correlative studies that translate experimental, observational, computational, or technologic research findings.

**ELSEVIER TERMS AND CONDITIONS OF SUPPLY**

**1. Applicability**

These terms and conditions shall be applied to all offers, proposals and agreements made by Elsevier to and any third party or its agent ("the Client") relating to the products and/or services of Elsevier ("the Products and/or Services") and, along with the relevant Elsevier order acknowledgment, shall form the entire agreement between the parties for the "TC". They supersede any previous supply terms and conditions. For the purposes of these terms and conditions, Elsevier shall mean Elsevier, a wholly-owned subsidiary of Unmediated Ltd. and/or its Affiliates.

- **2. Payment**

All payments made by the Client shall be made in full without any deduction in accordance with the provisions of the TC, and any amount paid by the Client in full satisfaction of any claim shall not relieve the Client of any further liability in respect thereof.

- **3. Execution and modification of the order**

The formation, existence, construction, performance, validity and all aspects of the TC shall be governed by the law of the corporate domicile of the Elsevier company which is providing the Products or Services. The parties agree to submit to the jurisdiction of the courts located in that country.

- **4. Compliance with Laws**

These terms and conditions shall apply to all offers, proposals and agreements made between Elsevier and any third party or its agent ("the Client") relating to the products and/or services of Elsevier ("the Products and/or Services") and, along with the relevant Elsevier order acknowledgment, may result in an adjustment to the final price and/or delivery schedule at Elsevier's discretion. If at the request of the Client, Elsevier requires additional payments in writing, or verbally or any other medium of communication, the Client shall pay such additional payments within the time period specified in the written or verbal request. Elsevier reserves the right to withhold supply of the Products or Services as set out on the Elsevier order acknowledgement or invoice. Where general terms and conditions of business are proposed by the Client, these shall not apply and the TC shall prevail. Any variations to the TC and any representations about the Products and Services shall have no effect unless expressly agreed in writing and signed by an authorized signatory of Elsevier. Nothing in the TC will exclude or limit Elsevier's Liability for fraudulent misrepresentation.

- **5. Force majeure**

In the event of labor dispute, strikes, inability to obtain labor or materials, fire or other event of the elements, Act of God, or appropriation or other causes beyond the control of a party, such party is unable to perform in whole or in part the obligations of the TC, the non-performing party will give notice thereof, and upon receipt by the other party, the force majeure shall extend the time for the performance of such obligations.

- **6. Distribution**

- The Client that is engaging, reproduction, replication of the Products or any other products of Elsevier in its facilities, shall directly or indirectly facilitate or allow any party to engage in these activities. The Client shall promptly notify Elsevier of any breach of any privacy, reproduction, display, or other content (the "Advertising Content"). Client represents and warrants that (i) Client holds the necessary rights to permit the use of the Advertising Content by Elsevier for the purposes of this TC; (ii) the use, reproduction, display, printing, distribution, or other use of the Advertising Content herein shall not infringe or violate the rights of any third parties including, but not limited to, any trademark.
