# AJO-DO Clinical Companion

# Overview

For more than a century, the American Journal of Orthodontics and Dentofacial Orthopedics (AJO-DO) has been the leading orthodontic resource. The success of the journal, however, has resulted in a significant increase in submissions to the extent that a backlog of accepted articles has been created. This bottleneck in the publication process slows the dissemination of information that is certain to be of value to the orthodontic community. This community is inclusive of those involved in education, research, and patient care.

In response, the American Association of Orthodontists has approved the creation of a related publication titled the AJO-DO Clinical Companion, which will be an international journal dedicated to excellence in clinical orthodontics.

Every other month, readers will have online access to featured information and original peer-reviewed articles that examine all aspects of orthodontic treatment.
