Journal of Cartilage & Joint Preservation

Overview

The Journal of Cartilage & Joint Preservation will capture the best clinical, translational and basic science articles in this rapidly growing area of discovery and expertise. JCJP will publish peer-reviewed original research articles and state-of-the-art reviews, as well as techniques videos showing the applications of new findings to the care of patients in need of cartilage repair and joint preservation.

Because it sits at the intersection of basic and applied research, JCJP will bring important new findings to the toolbox of all researchers and clinicians involved in cartilage repair, development, function, degeneration, transplantation and rehabilitation, and with a strong new emphasis on joint preservation, including cartilage restoration techniques such as microfracture surgery, drilling, abrasion arthroplasty, autologous chondrocyte implementation, osteochondral autograft transplantation and osteochondral allograft transplantation.

ELSEVIER TERMS AND CONDITIONS OF SERVICE

1. Applicability
   These terms and conditions shall apply to all proposals, offers and agreements made by Elsevier and any third party or its agent ("the Client") relating to the products and/or services of Elsevier ("the Products and/or Services") and, along with the relevant Elsevier order acknowledgement, shall form the entire agreement between the parties (the "TC"). They supersede any previous agreements or understandings relating to the Products and/or Services.

2. Execution and modification of the order
   No order placed by the Client shall be deemed accepted until a written acknowledgement of order is issued by Elsevier or [Florida] Elsevier delivers the Product or service to the Client. The Client shall at all times during the term strictly comply with all applicable laws, ordinances, codes, regulations, and other governmental requirements relating to the use of the Products and/or Services.

3. Liability and claims
   Elsevier shall not be liable for any breach of the Product or service if it is not capable of being performed as result of any breach of an express obligations by the Client or if it is unable to perform the Product or service due to any cause beyond its reasonable control, including, but not limited to, acts of God.

4. Payment
   Unless otherwise agreed in writing, payments shall be effected within thirty (30) days of the invoice date in the currency rendered. In the event that any payment is due and not received by Elsevier within fifteen (15) days of the due date, Elsevier may charge interest at a rate of 1% per month on the unpaid balance. If any sum remains outstanding for more than thirty (30) days, then in addition to any other right or remedy Elsevier may have, Elsevier may, at its option, suspend performance of any other obligations under any of the Products and Services.

5. Warranty
   Unless otherwise agreed in writing, Elsevier warrants that the Products and/or Services are free from defects in design, workmanship and material. Elsevier's liability under this warranty is limited to repair or replacement of the Products and/or Services at Elsevier's option. Elsevier will not be liable for any indirect, special or consequential damages or losses.

6. Termination
   Either party may terminate the TC, without prejudice to any other rights or remedies, (i) if the other party commits a material breach of its obligations under the TC, (ii) if the Products or Services are not delivered within a reasonable time of the due date or if the Products or Services are not delivered in accordance with the TC, or (iii) if one party becomes insolvent. The surviving party shall be entitled to recover the costs incurred in connection with the termination of the TC.

7. Force majeure
   Neither party shall be liable for failure to perform any of its obligations under the TC provided that such failure is caused by an event beyond its reasonable control, including, but not limited to, acts of God, terrorism, war, insurrection, strikes, lockouts, epidemics, and other events beyond its control. The party affected by such event shall notify the other party thereof as soon as reasonably practicable, but no later than the due date of such invoice, send full details of such dispute to the other party, and make reasonable efforts to resolve the dispute.

8. Governing law
   The Client and Elsevier agree that the laws of [Florida] shall govern this TC and that any dispute arising out of or in connection with this TC shall be subject to the jurisdiction of the courts of [Florida]. The Client further agrees that it will not accept any payment or other benefit in money or in kind from any person or entity other than Elsevier for any act or forbearance or in connection with any matter or business transacted by or on behalf of Elsevier.
