The Lancet Diabetes & Endocrinology

Overview

The Lancet Diabetes & Endocrinology was launched in print and online in September 2013. The journal offers the same unique fast track experience offered by its sister journals for all authors of research papers that are selected for peer review, where articles can be published online within 8 weeks of submission. Timely news, views, research, and reviews in diabetes, endocrinology, and metabolism are published. Topics considered by the journal include: diabetes, obesity, nutrition and metabolism, osteoporosis, adrenal disorders, bone metabolism, growth disorders, lipid disorders, neuroendocrinology, pediatric endocrinology, pituitary disorders, reproductive endocrinology, and thyroid disorders.
