The Lancet Diabetes & Endocrinology

Overview

The Lancet Diabetes & Endocrinology was launched in print and online in September 2013. The journal offers the same unique fast track experience offered by its sister journals for all authors of research papers that are selected for peer review, where articles can be published online within 8 weeks of submission. Timely news, views, research, and reviews in diabetes, endocrinology, and metabolism are published. Topics considered by the journal include: diabetes, obesity, nutrition and metabolism, osteoporosis, adrenal disorders, bone metabolism, growth disorders, lipid disorders, neuroendocrinology, pediatric endocrinology, pituitary disorders, reproductive endocrinology, and thyroid disorders.

ELSEVIER TERMS AND CONDITIONS OF SUPPLY

1. Applicability of terms and conditions shall apply to all offers, proposals and agreements made between Elsevier and any third party or its agent ("the Client") relating to the products and/or services of Elsevier ('the Products and/or Services') and, along with the relevant Elsevier order acknowledgement, shall form the entire agreement between the parties (the "TC").

2. These terms and conditions apply to all offers, proposals and agreements made between Elsevier and any third party or its agent ("the Client") relating to the products and/or services of Elsevier ("the Products and/or Services") and, along with the relevant Elsevier order acknowledgement, shall form the entire agreement between the parties (the "TC").

3. Execution and modifications of the order. Any modifications to the agreed product or service description, price or delivery schedule, as set out in the order acknowledgement, may result in an adjustment to the final price and/or delivery schedule at Elsevier's discretion. If, at the request of the Client, Elsevier renders additional Services in connection with the performance of the TC, Elsevier shall act in the name of, and on behalf of, the Client. Any charges levied by Elsevier for delivery/performance of the Services intended to be an estimate and time of delivery/performance shall not be made of the Client. Any such estimates, orders, or specifications shall not be construed as being an offer of sale or confirmation of intention to sell to the Client.

4. Payment. Unless otherwise agreed in writing, Elsevier shall be entitled to charge, and the Client shall be liable to pay, all direct and indirect taxes and duties of any nature, including any value-added tax, imposed by or on behalf of any Government (or any department or other authority of the same) on the Products and/or Services, or any part thereof, irrespective of whether such tax is payable on the Client's acquisition or possession of the Products and/or Services or is paid, directly or indirectly, by Elsevier. The Client shall indemnify Elsevier against any and all claims, costs, expenses, damages, losses and liabilities, including interest and legal fees, which Elsevier may incur or sustain in connection with any such tax, duty and/or tax recovery action.

5. Force majeure. Elsevier shall not be liable for any failure or delay in its performance of the TC, or any part thereof, caused by or due to any cause beyond its reasonable control, including (without limitation) strikes, lockouts, governmental action, civil commotions, war, acts of terrorism or sabotage or any other cause similar to such events.

6. Distribution. The Client shall not engage in piracy, reproduction, or plagiarize any of the Products or its advertisements, nor shall it directly or indirectly facilitate any other party to engage in such activities. The Client shall promptly notify Elsevier if it becomes aware of any piracy, reproduction, or plagiarism of the Products to the third party. The Client shall be solely responsible for collecting from its customers any amounts due in respect of the Products, exercising full credit control and solely bearing all of its losses resulting from any uncollected amounts. Delay or failure in obtaining such payments will not affect the Client's obligation to make payments to Elsevier under the TC.

7. Copyright and other intellectual property rights. Elsevier shall be the owner of all intellectual property rights in the Products. The Client acknowledges that the Client's payment for the Products will not affect Elsevier's title to, or the Client's obligation to make payment to Elsevier for, the Products. The Client may not, without the prior written permission of Elsevier, reproduce, translate, lease, license, or sublicense, in whole or in part, the Products for any purpose.

8. Responsibility for compliance with laws. The Client acknowledges that it is responsible for compliance with all applicable laws, regulations and orders of any nature, and that Elsevier shall not be responsible for ensuring compliance with such laws, regulations or orders.

9. Force majeure. Elsevier shall not be liable for any failure or delay in its performance of the TC, or any part thereof, caused by or due to any cause beyond its reasonable control, including (without limitation) strikes, lockouts, governmental action, civil commotions, war, acts of terrorism or sabotage or any other cause similar to such events.

10. Advertising & Reprints. The Client shall be responsible for all advertising and reprinting costs, including reproduction of the Products. Elsevier shall not be liable for any failure to reproduce or reprint the Products or any part thereof.

11. Execution and modification of the order. Any modifications to the agreed prices/rates or delivery schedule, as set out in the order acknowledgement, may result in an adjustment to the final price at Elsevier's discretion. If, at the request of the Client, Elsevier renders additional Services in connection with the performance of the TC, Elsevier shall act in the name of, and on behalf of, the Client. Any charges levied by Elsevier for delivery/performance of the Services intended to be an estimate and time of delivery/performance shall not be made of the Client. Any such estimates, orders, or specifications shall not be construed as being an offer of sale or confirmation of intention to sell to the Client.

12. Compliance with laws. The Client shall be responsible for compliance with all applicable laws, regulations and orders of any nature, and that Elsevier shall not be responsible for ensuring compliance with such laws, regulations or orders.

13. Force majeure. Elsevier shall not be liable for any failure or delay in its performance of the TC, or any part thereof, caused by or due to any cause beyond its reasonable control, including (without limitation) strikes, lockouts, governmental action, civil commotions, war, acts of terrorism or sabotage or any other cause similar to such events.

14. General. The formation, existence, construction, performance, validity and all aspects of the TC shall be governed by the law of the corporate domicile of the Elsevier company which is providing the Products or Services. The parties agree to submit to the exclusive jurisdiction of the courts of the same. The Client shall not be entitled to assign the TC to any other party without the prior written consent of Elsevier. Elsevier may assign the TC to any part or parts of any business, firm, or company. If any provision of the TC is found by any court, tribunal or administrative body of competent jurisdiction to be invalid, illegal or unenforceable in any jurisdiction, such invalidity, illegality or unenforceability shall not affect any other provision of the TC, but the remainder of such provision shall continue in full force and effect. Failure or delay by Elsevier in enforcing or partially enforcing any provision or exercising any breach of the TC shall not be construed as a waiver of any of its rights under the TC.
