Transplantation Proceedings

Overview

Reviews and original reports by experts on current problems in transplantation biology and medicine. It is specifically designed for all those directly or indirectly concerned with this dynamic and expanding field. The journal has been recognized as the world's most complete reference source for transplantation.

†Excluding personally identifiable information (PII).
2. Applicability

These terms and conditions shall apply to all offers, proposals and agreements made between Elsevier and any third party or its agent (the "Client") relating to the products and/or services of Elsevier ("the Products and/or Services") and, along with the relevant Elsevier offer acknowledgement, shall form the entire agreement between the parties (the "TC"). The TC supersede any previous supply terms and conditions. For the purposes of the TC, "Elsevier" shall mean the company within the Elsevier group that is providing the Products or Services as set out on the invoice. Unless otherwise expressly agreed by Elsevier, the TC shall apply to each order placed by the Client whether the Client is a Client or a sub-client of another Client. The TC and any other agreements or arrangements are executed at the location of the server of Elsevier for the account and use of no more than one identified institutional subscriber as principal or, if the agent is permitted to order personal subscriptions in a representative capacity, for the account and use of no more than one identified eligible individual subscriber for personal use. Elsevier acknowledges that violation of this representation and warranty will cause irreplaceable harm to it. Upon violation of this representation and warranty, Elsevier shall be entitled to immediate injunctive relief requiring Client to discontinue all recipients of the Products and Services from Elsevier, including all actual recipients that have not previously properly identified by Client. Elsevier shall commercially reasonable efforts to comply with the terms and conditions of the Products and Services agreed by both the parties, including such things as format, printing processes, technical design, size and kind of address, file weights, and the like. All drawings, descriptive matter, specifications and advertising issued by Elsevier or any descriptions or illustrations contained in Elsevier’s catalogues or brochures are issued as published for the sole purpose of giving an approximate description of the Products and Services described in them. They will not form part of the TC. Publishing errors, including, but not limited to, typographical errors, having no significant effect on the editorial content or design characteristics of the Products and Services, cannot be considered a reason for rejecting any part of the TC, as the case may be, or making any demand.
