Overview

*Thrombosis Research* is an international journal with a goal of rapid dissemination of new information on thrombosis, hemostasis, and vascular biology to advance science and clinical care. The journal publishes peer-reviewed original research, along with reviews, editorials, and opinions and critics. Both basic and clinical studies are published. Publication of research which will lead to novel approaches in diagnosis, therapy, prognosis and prevention of thrombotic and hemorrhagic diseases is given high priority. Rapid communication and high visibility is facilitated by on-line submission, processing, and dissemination through Science Direct with powerful on-line links to other journals and sources.

1. Applicability

These terms and conditions shall apply to all proposals, offers and agreements made between Elsevier and any third party or its agent ("the Client") relating to the products and/or services of Elsevier ("the Products and/or Services") and, along with the relevant Elsevier order acknowledgement, shall form the entire agreement between the parties for the "TC". They supersede any previous understandings or agreements between the parties. For the purposes of this TC, an order acknowledgement is any written confirmation by Elsevier that the Products or Services are set out as set out on the Elsevier order acknowledge or invoice. Where general terms and conditions of business are proposed by the Client, these shall be applied and the TC shall prevail. Any variation to the TC and any representations about the Products and Services shall have no effect unless expressly agreed in writing and signed by an authorised official of Elsevier. Nothing in the TC will exclude or limit Elsevier’s Liability for death or personal injury.
