World Neurosurgery

Overview

Aims and Scope: To create a principal international information conduit for establishing modernity of neurosurgical practice for the global community through contemporary and innovative journalistic communication technologies and channels. To serve as a forum for scientific, clinical, educational, social, cultural, economic, and political ideas and issues for global neurosurgery. To act as a primary intellectual catalyst for the field. To enhance and move toward complete global communication related to all aspects of current and future neurosurgical practice, research, and progress.
