Overview

This bi-monthly, easily readable, high-quality journal has one of the largest circulations of any oral and maxillofacial surgery journal. It receives articles from around the world and has an international Editorial Board. Articles are peer reviewed by at least two referees and when accepted are reviewed by the journal’s Technical Editor to ensure a consistently high standard. Each issue publishes articles on current techniques and surgical innovations covering the full spectrum of surgery in the oro-facial and head and neck region. This journal is an excellent resource for oral and maxillofacial, plastic, E.N.T. and ophthalmic surgeons.
