Contact your sales representative for all digital advertising rates and opportunities.
1. Applicability

These terms and conditions shall apply to all proposals, offers, discussions, agreements and other third party agreements ("the Client") relating to the products and/or services of Elsevier ("the Products and/or Services") and, along with the relevant Elsevier order acknowledgement, shall form the entire agreement between the parties ("the TC"). They supersede any previous supply terms and conditions. For the purposes of these terms and conditions, Elsevier shall be deemed to be the party supplying the Products and/or Services as set out on the Elsevier order acknowledgement or invoice. The terms and conditions of business are proposed by the Client, these shall apply and the TC shall prevail. Any variation to the TC and any representations about the Products and Services shall have no effect unless expressly agreed in writing and signed by an authorized signature of Elsevier. Nothing in the TC will exclude or limit Elsevier’s Liability for fraudulent misrepresentation.

2. Offer and acceptance/Description

Each order placed by the Client for the purchase of the Products and Services subject to the TC has been accepted when the Client is deemed to have accepted, by the use of its services, the information and terms and conditions in the order acknowledgement. Upon acceptance, these terms and conditions shall govern all of Elsevier’s representations about the Products and/or Services agreed by both parties in the relevant order, including such things as prices, terms of delivery, description, calculations of address, weights, or the like. All drawings, descriptive matter, specifications and advertising matter or Elsevier’s or other descriptions or illustrations contained in Elsevier’s catalogues or brochures are issued or published for the sole purpose of giving an approximate description of the Products and Services described therein. They will form part of the TC. Publishing errors, including, but not limited to, typographical errors, having no significant effect on the editorial content or design characteristics of the Products and Services, cannot be considered a reason for rejecting delivery or, as the case may be, modifying the agreed price.

3. General and modification of the order

If the Client wishes to alter the agreed product or service description, budget or schedule, as set out in the order acknowledgement, any such alteration may result in an adjustment to the final price and/or delivery schedule at Elsevier’s discretion. If, at the request of the Client, Elsevier receives additional non-cancelable orders or requests, Elsevier will assign a unique invoice number to each order, in accordance with the Client’s request. Where the Client wishes to make any other changes to the order acknowledgement or invoice, Elsevier will provide a new invoice number and shall charge the amount actually invoiced to the Client. Elsevier shall be entitled to make price, delivery, or other terms, modifications to or alterations to the Products and Services in the order acknowledgement as Elsevier shall see fit in its sole discretion. The Client agrees that, in such cases, the Client shall be invoiced for the modified Products and/or Services at the then-current prevailing rates. The Client shall acknowledge that a higher price would be payable for the Products or Services but for such limitations. Nothing in the TC shall be construed as creating an obligation to indemnify the other party against the other party’s own negligence. Elsevier’s Liability for any other loss imputable to it shall in any event be limited to the invoice value of the part of the Order not delivered and the Client agrees to indemnify Elsevier against any and all liabilities for any breach by the Client of any express or implied warranty, condition or representation, or for any damages or legal costs, whether or not incurred by Elsevier, and regardless of whether or not the breach is the fault of Elsevier or the Client, which result from the Client’s failure to provide or obtain all information or other content (the “Advertising Content”). Client represents and warrants that (i) Client holds the necessary rights to use, copy, modify or distribute the Advertising Content for the purposes of this TC; (ii) the use, reproduction, display or broadcast of the Advertising Content by Elsevier for the purposes of this TC does not violate any anti-discrimination law or regulation, or any other right of any person or entity; (iii) Advertising Content will be used in accordance with any advertising rules, regulations or industry codes or any rights of any third parties including, but not limited to, infringement or misappropriation of any copyright, patent, trademark, trade secret, music, image, or other proprietary or property right, data advertising, unfair competition, affiliation, invasion of privacy or rights of celebrity, violation of any anti-discrimination law or regulations, or any other right or any person or entity; (iv) Advertising Content will be used in accordance with any advertising rules, regulations or industry codes or any rights of any third parties including, but not limited to, infringement or misappropriation of any copyright, patent, trademark, trade secret, music, image, or other proprietary or property right, data advertising, unfair competition, affiliation, invasion of privacy or rights of celebrity, violation of any anti-discrimination law or regulations, or any other right or any person or entity.

5. Prices, taxes and exchange rates

Unless otherwise agreed by Elsevier in writing the prices for the Products and Services is Elsevier’s current price list (whether print or online). All such prices shall be exclusive of any handling, packing, loading, freight, transport and insurance charges unless otherwise agreed in writing, and shall be exclusive of any taxes, import duties or other import levies on the sale or import of the Products or Services by local or national authorities, which will be charged by Elsevier as appropriate. Where applicable, Elsevier shall provide to Elsevier VAT registration number or other tax registration number. The Client shall pay for the Products and/or Services in such currency as Elsevier may from time to time determine, or as specified in the order acknowledgement and/or invoice. Where the Client is liable to pay Value Added Tax (VAT) on orders specified positions are to be modified, Elsevier shall be entitled to charge the Client any amount in an amount which is equal to the amount actually invoiced to the Client, net of all applicable taxes and any other taxes imposed by any government or local authority, less any applicable credits. Where the Client is liable to pay Value Added Tax (VAT) on orders other than positions are to be modified, Elsevier shall be entitled to charge the Client any amount in an amount which is equal to the amount actually invoiced to the Client, net of all applicable taxes and any other taxes imposed by any government or local authority, less any applicable credits.

6. Distribution

The Client that may engage various, reproduction or replication of the Products or any other products of Elsevier in its facilities, shall develop and shall not notify Elsevier in writing, and shall be responsible for collecting from its customers the amount due in respect of the sale of the Products or Services by any means or method. The Client may agree to sell, licence or assign the Products and/or Services or any part thereof to any other party engaging in the same activities. The Client shall promptly notify Elsevier of any breach of any privacy, reproduction, or other content of the Products and/or Services.

7. Intellectual property

Elsevier is the exclusive owner of all copyrights and other intellectual property rights in the Products and/or Services, except for those rights which this TC grants to the Client. Any modification or alteration of the Products and/or Services, or any part thereof, shall be done in good faith for the purpose of making the Products and/or Services stronger or more popular and not for the purpose of undermining the exclusive rights of Elsevier. If the Client has been given a discounted rate for volume by Elsevier, and the Client does not order the quoted volume, Elsevier shall return to the Client any amount overpaid by the Client. Orders specifying positions are to be modified, Elsevier shall be entitled to receive payment for the complete number of copies of the quoted Product that have not been delivered. For the avoidance of doubt no intellectual property rights in the Products and/or Services shall transfer to the Client. The Client acknowledges that a higher price would be payable for the Products or Services but for such limitations. In the event of dispute, the Client shall in good faith allow Elsevier the opportunity to cure any non-conformance or breach of the TC and shall have the right to reject the Products or Services if such non-conformance or breach is not cured. The Client agrees to indemnify Elsevier for any claims made against Elsevier due to the Client’s use of the Products or/and Services and any claims arising from the TC until such advance payment has been received. Where the Client is liable to pay Value Added Tax (VAT) on orders other than positions are to be modified, Elsevier shall be entitled to charge the Client any amount in an amount which is equal to the amount actually invoiced to the Client, net of all applicable taxes and any other taxes imposed by any government or local authority, less any applicable credits. Elsevier shall be entitled to receive payment for the complete number of copies of the quoted Product that have not been delivered. For the avoidance of doubt no intellectual property rights in the Products and/or Services shall transfer to the Client. The Client acknowledges that a higher price would be payable for the Products or Services but for such limitations. In the event of dispute, the Client shall in good faith allow Elsevier the opportunity to cure any non-conformance or breach of the TC and shall have the right to reject the Products or Services if such non-conformance or breach is not cured. The Client agrees to indemnify Elsevier for any claims made against Elsevier due to the Client’s use of the Products or/and Services and any claims arising from the TC until such advance payment has been received. Where the Client is liable to pay Value Added Tax (VAT) on orders other than positions are to be modified, Elsevier shall be entitled to charge the Client any amount in an amount which is equal to the amount actually invoiced to the Client, net of all applicable taxes and any other taxes imposed by any government or local authority, less any applicable credits.
