Journal of Cardiac Failure

Overview

Journal of Cardiac Failure is the official publication of the influential Heart Failure Society of America (HFSA) and Japanese Heart Failure Society (JHFS). The journal’s peer-reviewed original papers and review articles address clinical research, basic human studies, and bench research with potential clinical applications to heart failure-pathogenesis, etiology, epidemiology, pathophysiological mechanisms, assessment, prevention, and treatment. Journal of Cardiac Failure, as the voice of the specialty, also publishes guidelines issued by the Heart Failure Society of America that will help further define the practice of cardiovascular medicine and that readers will use repeatedly.
