2. Applicability These terms and conditions shall apply to all offers, proposals and agreements made between Elsevier and any third party or its agent ("the Client") relating to the products and/or services of Elsevier ("the Products and/or Services") and, along with the relevant Elsevier order acknowledgement, shall form the entire agreement between the parties (the "TC"). The Client shall immediately provide a copy of the TC and any amendments thereto to any third party entrusted with the task of creating, delivering and/or making available the Products and/or Services.

3. Execution and modification of the order Any modifications to the agreed product or service description, budget or schedule, as set out in the order acknowledgment, may result in an adjustment to the final price and/or delivery schedule at Elsevier's discretion. If, at the request of the Client, Elsevier renders additional Services in connection with the performance of the TC, Elsevier shall be entitled to charge for such additional Services at its current price schedule, whether or not previously stated in its current price schedule, list (whether print or online).

4. Prices, taxes and currencies Unless otherwise agreed by Elsevier in writing, the prices for the Products and Services shall be set out in Elsevier's current price schedule (whether print or online). All such prices shall be exclusive of any handling, packing, loading, freight, insurance, transport and import/export duties and taxes. All above prices are exclusive of any value added tax ("VAT") as may be applicable and are quoted as exclusive of any such tax.

5. Payment

- Failure or delay by Elsevier in paying the invoice will not be construed as a waiver of any of its rights under the TC. The Client shall not be entitled to any interest on late payments.
- Any amounts actually owed to Elsevier shall be paid directly to Elsevier. The Client will be solely responsible for any cost of forwarding any foreign-exchange-related procedures in the said territory that are necessary to facilitate the payment of such amounts.
- Payment of all invoices shall be made in full without deduction or setoff. Elsevier reserves the right to withhold the supply of Products or Services under the current order until such outstanding amounts are fully paid. Elsevier shall be entitled to apply any monies received by the Client, to any of the Client's outstanding debts to Elsevier.

6. Distribution

- The Client shall not engage in piracy, reproduction, or plagiarism of the Products or any other products of Elsevier or its affiliates, nor shall it directly or indirectly facilitate any other party to engage in those activities. The Client shall promptly notify Elsevier if it becomes aware of any reproduction, reproduction, or plagiarism of the Products by any third party. The Client shall be solely responsible for collecting from its customers amounts due in respect of its sales of the Products, exercising full credit control and solely bearing all of its own losses resulting from any uncollected amounts. Delays or failures in obtaining such payments will not affect the Client's obligation to make payments to Elsevier under clause 5.
- The Client acknowledges that a higher price would be payable for the Products or Services but for such limitations.
- The Client will not acquire any new right, reproduction, or plagiarism of the Products or any other products of Elsevier or its affiliates.
- The Client agrees to indemnify Elsevier and to hold Elsevier harmless from any and all claims, actions, suits, costs or expenses, including reasonable legal fees and expenses incurred by Elsevier, arising out of or related to the Advertising.
- The Client acknowledges that it is responsible for ensuring that any change of copy is received before the Closing Date, although Elsevier will endeavour to do so, Elsevier may not be able to arrange for such copy to be published on the specified dates. The Client acknowledges that if it participates in the campaign will however be required in full. When change of copy is not received before the Closing Date, copy run in
