Specifications

**File Format**

**PDF or PDF/X-1a compliant files, saved as PDF version 1.3.**

Transparencies within the supplied PDF(s) will be warned. The transparent elements contained in your file(s) must be converted within the native layout application or flattened in Acrobat using the High Resolution Flattener Presets to avoid overprint issues.

Saving your PDF to Acrobat 4 (PDF 1.3) compatibility will ensure transparent elements are flattened. If the ad contains spot colors that are not converted to process colors (CMYK) before flattening, overprint and/or trap issues may occur.

The following layout applications yield the optimum results for creating a print-compliant PDF and are expected to follow all requirements listed in this document:

- InDesign version 2 or higher (CS preferred)
- QuarkXPress version 6.5 or higher

Additional costs may apply if problems are encountered.

*NOTE: When using Adobe Illustrator it is preferred to have all fonts converted to outline/paths, and files submitted as EPS files.*

**Images**

All high-resolution images and fonts must be included. TIFF & EPS files must conform to the following minimum resolution specifications:

- Grayscale and Color images: 300 dpi
- Combination Grayscale and Color images: 500-900 dpi
- Line art (Bitmap) images: 900-1200 dpi

Higher image resolutions are acceptable as they exceed the minimum requirements, but in some cases unnecessary resolution will be discarded to achieve smaller file sizes.
Fonts
Use of PostScript Type 1 fonts is encouraged. Include fonts for any embedded graphics. DO NOT use Type 3 or Multiple Master fonts. Avoid using Macintosh
menu-stylized fonts, Macintosh "city" fonts (Chicago, Geneva, etc.) and Microsoft Outlook fonts (Tahoma, Impact, etc.).

Page Layout
Regardless of the file format supplied, all ads must conform to the following specifications:

- Final size must meet journal trim size and include 1/8" bleed image on all four sides.
- Files will include trim marks with a minimum 3/16" offset
- No content is to be within 1/4" of all trim edges.
- Supply as single page files only
- Right Reading, Portrait Mode, 100% size, No Rotation.
- All fonts and graphics must be either embedded or included with the files and conform to the format type listed above. Images must also conform to the specifications above for minimum image resolution.
- All color ads should be supplied as composite files.
- Reverse type should be no less than 6pt. Fine lettering (thin lines, serifs) should be restricted to one color.
- Embedded images should not be scaled, cropped/masked or rotated within the page layout application but instead should be manipulated in a proper image editing program (ex. Photoshop) and then imported into the page layout program at proper size and position.
- DO NOT nest EPS files within EPS files.
- All lines and line art images should be of a minimum 1/3 pt thickness (1/2 pt for reverses) at final size to reproduce effectively on press.
- Crop marks and SWOP color bars must be included and positioned 1/2" outside trim.

Color Space
All color images and files are to be supplied as CMYK with a Total Area Coverage (TAC) not to exceed 300% for the darkest area of an image. Files supplied as RGB will be automatically converted to CMYK.

Spot Colors
Spot colors are to be identified using the standard Pantone naming convention and not a custom color such as "Dark Blue." PMS colors will be converted to process unless otherwise specified. When using both art and layout programs be sure spot color naming is consistent in all applications (ex. Do not define both PMS 201CV and PMS 201CVC). Any non-intended spot colors will be converted to CMYK.

Trapping and Screening
Overprints and knockouts should be defined. Files are NOT to be trapped or prescreened. Our Prepress service provider will use industry recognized trapping software to auto-trap your files for optimum performance and reproduction on press and will apply the appropriate screening. Note that these trap settings may force small text and fine graphics to overprint to hold registration on press.

Proofs
If submitting a proof for color match on press, please send a SWOP-certified contract color proof (with SWOP proofing bar or GATF proof comparator), produced from the final submitted file and imaged at 100% scale. Revised proofs must be supplied whenever a text or design change is made. For a list of current SWOP-approved proofs visit https://idealliance.org/systems-certification/certified-hard-copy-proofing-systems/. Desktop inkjet printer proofs do not meet SWOP specifications. Elsevier cannot guarantee color match unless acceptable proof is provided. If a contract proof is not supplied Elsevier will run to standard ink densities and dot gains.

They supersede any previous agreement between the parties for the TC. Each order for the Products and/or Services by the Client from Elsevier shall be deemed to be an offer by the Client to Elsevier to supply the Products and/or Services in accordance with these terms and conditions. The Client shall be responsible for paying all costs incurred up to and including the date of the cancellation or partial cancellation. The Client shall at all times cooperate with Elsevier in the orderly and efficient completion or return of canceled items. The Client acknowledges that violation of this representation and warranty will cause irreparable harm to Elsevier. Upon any violation of this representation and warranty, Elsevier shall be entitled to terminate immediately without prior notice. The Client shall pay, reimburse, and indemnify Elsevier for any costs, damages, or expenses incurred in enforcing this provision.

4. Intellectual property
Copyright and other intellectual property rights to all Elsevier proposals, publications and other Products and Services shall remain with Elsevier unless agreed otherwise in writing. The Client acknowledges that violation of this representation and warranty will cause irreparable harm to Elsevier. Upon any violation of this representation and warranty, Elsevier shall be entitled to terminate immediately without prior notice. The Client shall pay, reimburse, and indemnify Elsevier for any costs, damages, or expenses incurred in enforcing this provision.

5. Inspection, storage and return of products
Product orders are accepted subject to availability of the ordered goods. Unless otherwise agreed by Elsevier in writing, all products delivered will remain Elsevier’s property until full payment has been received. The Client shall be responsible for the reasonable and bona fide expenditures, such as travel or lodging expenses, which have been incurred or committed up to and including the date of the cancellation or partial cancellation, and shall pay Elsevier for such losses. The Client acknowledges that violation of this representation and warranty will cause irreparable harm to Elsevier. Upon any violation of this representation and warranty, Elsevier shall be entitled to terminate immediately without prior notice. The Client shall pay, reimburse, and indemnify Elsevier for any costs, damages, or expenses incurred in enforcing this provision.

6. Title
Title to all products supplied by Elsevier to the Client shall pass to the Client immediately on receipt of the full invoice price for such products. The Client shall at all times during the term strictly comply with all applicable laws, ordinances, codes, regulations, and in respect of its duties, obligations and performance under this Agreement, including, without limitation, anti-discrimination laws and regulations. The Client shall promptly notify Elsevier if it becomes aware of any piracy, reproduction, or plagiarism of the Products by any third party. The Client shall be solely responsible for collecting from its customers amounts due and at risk of the Client. The Client acknowledges that violation of this representation and warranty will cause irreparable harm to Elsevier. The Client shall pay, reimburse, and indemnify Elsevier for any costs, damages, or expenses incurred in enforcing this provision.

7. Financial terms and conditions
