Overview

The Canadian Journal of Cardiology (CJC) is the official journal of the Canadian Cardiovascular Society. The CJC is a vehicle for the international dissemination of new knowledge in cardiology and cardiovascular science, particularly serving as the major venue for Canadian cardiovascular medicine. The CJC publishes original reports of clinical and basic research relevant to cardiovascular medicine, as well as editorials, review articles, and case reports. Papers on health outcomes, policy research, ethics, medical history, and political issues affecting practice, as well as letters to the editor, are also published. CJC is the repository for CCS guidelines and position papers.
