Clinical Colorectal Cancer

Overview

Clinical Colorectal Cancer is a quarterly journal established in 2001 focused on colorectal cancer. In 2010, Clinical Colorectal Cancer expanded its scope to include other upper GI malignancies, including pancreas, liver and esophageal cancer. It features an international editorial board comprised of prominent thought leaders, including Editor-in- Chief Dr. Edward Chu. It is mailed free of charge to US-based medical oncologists, radiation oncologists, hematologists and surgical oncologists. Each issue features peer-reviewed original contributions, comprehensive reviews and case reports, commentaries, and current trial reports. Also included are brief editorials of current news and the latest topics concerning colorectal cancer issues relevant to clinicians.
