Journal of Dermatological Science

Overview

*The Journal of Dermatological Science* publishes high quality peer-reviewed manuscripts covering the entire scope of dermatology, from molecular studies to clinical investigations. The Editor and his Editorial Board especially encourage the publication of research based on a process of bilateral feedback between the clinic and the laboratory, in which incompletely understood clinical phenomena are examined in the laboratory and the knowledge thus acquired is directly reapplied in the clinic. This continuous feedback will refine and expand our understanding of both clinical and scientific domains.

Although the Journal is the official organ of The Japanese Society for Investigative Dermatology, it serves as an international forum for the work of all dermatological scientists. With an internationally renowned Editorial Board, the Journal maintains high scientific standards in the evaluation and publication of manuscripts.

1. Applicability
These terms and conditions apply to all proposals, offers and communications made between the Publisher and the Client relating to the products and/or services of Elsevier (the "Products and/or Services") and, along with the relevant Elsevier order acknowledgement, shall form the entire agreement between the parties for the "TC". They supersede any previous supply terms and conditions. These terms and conditions are binding on the Client (the "Client") to the exclusion of any terms or conditions proposed by the Client. To the extent any variation to the TC is in writing and signed by an authorised signatory officer of Elsevier, the terms and conditions of any such variation shall govern.
