Experimental Hematology

Overview

Experimental Hematology presents outstanding coverage of recent progress in stem cell biology, experimental stem cell transplantation, cytokine biology, and cellular immunology. This journal features original research articles and comprehensive reviews, providing a forum for the exchange of knowledge among experimental hematologists, clinical stem cell transplanters, and clinical hematologists. Experimental Hematology is one of the most widely read journals in the area of hematology and transplantation research. It also is of special interest to members of the biotechnology industry. The journal is available full-text online through www.exphem.org for subscribers, who receive access as part of their print subscription.
