Medical Dosimetry

Overview

*Medical Dosimetry* is the key source of information on new developments for medical dosimetrists. Practical and comprehensive in coverage, the journal features original contributions and review articles by medical dosimetrists, oncologists, physicists, dosimetrists and radiation therapy technologists on clinical applications and techniques of external beam, interstitial, intercavitary and intraluminal irradiation in cancer management. Each issue also presents a review of new literature, including summaries of current articles of interest to medical dosimetrists, as well as book reviews, letters to the Editor, news on job opportunities and a calendar of upcoming events.

Contact your sales representative for all digital advertising rates and opportunities.
1. Applicability

These terms and conditions shall apply to all offers, proposals and agreements made by Elsevier with any third party or that third party’s (“the Client”) relating to the products and/or services of Elsevier (the “Products and/or Services”) and, along with the relevant Elsevier order acknowledgment, shall form the entire understanding between the parties for the “TC”.

The Client shall agree to purchase the Products and/or Services at the terms and conditions set out in the Elsevier order acknowledgment. If any provisions of the TC are inconsistent with the terms and conditions set out in the Elsevier order acknowledgment, such provisions relating to the Products and/or Services shall govern. In the event of any conflict with the terms and conditions set out in the Elsevier order acknowledgment, the Client shall immediately notify Elsevier of the inconsistent terms.

2. Execution and modification of the order

Any modifications to the specifications of the Products or service description, budget, schedule, time limits, or the under acknowledgment, may result in an adjustment to the final price and/or delivery schedule at Elsevier’s discretion. If at the request of the Client, Elsevier reads additional specifications, or any other request is made for additional specifications, the Client shall agree to pay Elsevier for the additional cost of such services.

3. Force majeure

If by reason of labor dispute, strikes, inability to obtain labor or materials, fire or other action of the elements, or appropriation or other causes beyond the control of a party, such party is unable to perform in whole or in part any obligation hereunder, the party so affected may, at its option, (1) extend the time for performance of any such obligation to the amount of time required by reason of such cause, or (2) if the party so affected can continue, perform such obligation in the manner and to the extent that it could have been performed in the absence of such cause.

4. Price, taxes and currencies

Unless otherwise agreed by Elsevier, the selling price for the Products and/or Services shall be FOB Elsevier’s price list. Invoices shall be in either English or another language agreed by the Client and Elsevier as appropriate. Where applicable, the Client shall provide to Elsevier its VAT registration number or other identifiers as required. The Client shall pay for all taxes, duties, levies or other charges imposed on the sale of any Products and/or Services by any governmental authority.

5. Payment

Unless otherwise agreed in writing, and subject to any other agreements between the parties, all amounts due to Elsevier under the TC shall be paid within 30 days of the invoice date. Invoices not paid within 30 days shall bear interest at the rate of 1.5% per month, or any other rate of interest agreed upon by the parties in writing. The Client shall be responsible for all costs and expenses, including but not limited to, all taxes, duties, levies or other charges imposed on the sale of any Products and/or Services by any governmental authority.

6. Distribution

Elaborate on the distribution terms and set out the mechanisms for delivering the Products and/or Services, including any delivery charges or fees.

7. Cancellations & Returns

Orders specifying positions are subject to modification by Elsevier. The Client will have the right to cancel or modify such orders at any time before the Closing Date, copy run in previous issue may be inserted. Client shall retain a complete copy of all materials.

8. Compliance with laws

The Client agrees that the Product shall be operated or controlled by any federal, state, or local governmental authority, or any political subdivision thereof. The Client agrees that it will not use, sell, lease, rent, transfer, disclose, or otherwise transfer any Product in any manner inconsistent with any laws, rules, regulations, codes, or any rights of any third parties.

9. Liability and claims

Elaborate on the liability and claims section, including any limitations of liability, indemnification clauses, and any warranties or representations.

10. Advertising & Reprints

If any modifications to the agreed product or service description, budget, schedule, time limits, or the under acknowledgment, may result in an adjustment to the final price and/or delivery schedule at Elsevier’s discretion. If at the request of the Client, Elsevier reads additional specifications, or any other request is made for additional specifications, the Client shall agree to pay Elsevier for the additional cost of such services.

11. Audit

The Client acknowledges and agrees that Elsevier may audit the Client’s records in relation to the Products and/or Services provided under the TC. The Client shall provide Elsevier with all reasonable assistance, including all necessary records, information, and support personnel, and shall otherwise cooperate with Elsevier’s audits as it determines to be necessary or appropriate.

12. Revenue sharing

If applicable, discuss the revenue sharing arrangements between Elsevier and the Client.

13. Cancellations & Returns

The Client may cancel any order for the Products and/or Services at any time, subject to any terms and conditions agreed upon by the parties in writing.

14. General

Elaborate on any general terms and conditions that apply to the TC, such as arbitration clauses, force majeure, or any other provisions that are necessary to govern the relationship between Elsevier and the Client.
