Applicability: These terms and conditions shall apply to all proposals, offers, communications made by Elsevier and by any third party or its agent ("the Client") relating to the products and/or services of Elsevier ("the Products and/or Services") and, along with the relevant Dollar order acknowledgement, shall form the entirety of the agreement between the parties (the "TC"). They supersede any previous communication or promise. Any additional or different terms proposed by or on behalf of the Client shall not be considered as modifying the TC and such proposed terms or conditions shall not be binding on Elsevier without Elsevier’s prior written consent.

2. Compliance with laws: The Client shall comply with all applicable laws in its dealings with Elsevier. The Client shall not do or intend to do anything which would be illegal or which is in breach of any law or any other order or directive of any government agency or any other government-owned, operated or controlled entity (including, without limitation, state run universities, hospitals and libraries), or any exporting party, and shall ensure that the Client, any of the Client’s agents, officers, directors, employees or agents shall pay, offer, give, promise or authorize the payment, directly or indirectly, of any bribe, kickback, or other payment, gift, or gratuity.

3. Commission and confidentiality: The Client shall not engage in any business or activity that is not permitted under the Client’s place of business or residency. Client and its officers, directors, employees and agents shall not use, in connection with the Client’s dealings with any employee or official of a government agency or any other government-owned, operated or controlled entity, any information that is not properly obtained or received by the Client in its capacity as a contractor, supplier, agent, subcontractor or affiliate of the Client.

4. Intellectual property: The Client shall not use, reproduce, adapt or modify, directly or indirectly, any items of intellectual property or any other items of intellectual property, including but not limited to computer programs, source code, data files, data bases, databases, drawings, specifications, test results, instructions, manuals, and any other forms of intellectual property, without the prior written consent of Elsevier. The Client shall not do or intend to do anything which would be illegal or which is in breach of any law or any other order or directive of any government agency or any other government-owned, operated or controlled entity.

5. Payment: Unless otherwise agreed in writing, payments shall be effected within thirty (30) days of the invoice date in the currency received.

6. Force majeure: The Client shall not be liable for the failure or delay in performance of any of its obligations under the TC, except for the payment of monies, where the cause of such failure or delay is due to acts of God, war, terrorism, riot, revolution, or other circumstances beyond the Client’s control.

7. Product or Service: The Client shall not do or intend to do anything which would be illegal or which is in breach of any law or any other order or directive of any government agency or any other government-owned, operated or controlled entity.

8. Liability claims: To the maximum extent permitted by relevant laws, Elsevier shall not be liable for any loss, damage, cost, or expense suffered by the Client or its agents, officers, directors, employees or agents in connection with the performance of the Advertiser’s services, unless such loss, damage, cost, or expense is caused by Elsevier’s breach of the TC.

9. Indemnification: The Client shall indemnify Elsevier in respect of all costs, charges, and disbursements incurred in respect of any claim, action, suit, or proceeding brought against Elsevier, whether in contract, tort, or other legal theory, arising out of or related to the Advertising Content or Client’s breach or alleged breach of any of the foregoing representations, warranties, covenants, or agreements.

10. Advertising & Reprints: If the Client seeks any reproductions of the Products or Services for the purpose of advertising or reprints, Elsevier may provide such reproductions. The Client shall not do or intend to do anything which would be illegal or which is in breach of any law or any other order or directive of any government agency or any other government-owned, operated or controlled entity.
