Journal of Tissue Viability

Overview

The Journal of Tissue Viability is the official publication of the Tissue Viability Society and is a quarterly journal concerned with all aspects of the occurrence and treatment of wounds, ulcers and pressure sores including patient care, pain, nutrition, wound healing, research, prevention, mobility, social problems and management. The Journal particularly encourages papers covering skin and skin wounds but will consider articles that discuss injury in any tissue. Articles that stress the multi-professional nature of tissue viability are especially welcome. We seek to encourage new authors as well as well-established contributors to the field - one aim of the journal is to enable all participants in tissue viability to share information with colleagues.

1. Applicability
These terms and conditions shall apply to all offers, proposals and agreements made between Elsevier and any third party or its agent (the "Client") relating to the products and/or services of Elsevier ("the Products and/or Services") and, along with the relevant Elsevier order acknowledgement, shall form the entire agreement between the parties (the "TC").

2. Prices, taxes and currencies
Unless otherwise expressly agreed by Elsevier in writing, it is Elsevier’s policy to charge the Client for its own account and use and not on behalf of any other person or entity. If Client is an agent, it represents and warrants that it is purchasing the Products and Services from Elsevier for the account and use of no more than one identified institutional subscriber as principal or, if the agent is permitted to order subscriptions in a representative capacity, for the account and use of no more than one identified eligible individual subscriber for personal use only. Client acknowledges that validation of this representation and warranty will cause irreparable harm to Elsevier. Upon failure of this representation and warranty, Elsevier shall be entitled to immediate injunctive relief requiring Client to discontinue all recipients of the Products and Services from Elsevier, including all actual recipients that have not previously properly identified by Client. Elsevier shall use commercially reasonable efforts to comply with the provisions of the Products and Services agreed by both the parties in the relevant order, including such things as formatting, printing, technical design, size and kind of address file, weights and the like. All drawings, descriptive matter, specifications and advertising issued by Elsevier or any descriptions or illustrations contained in Elsevier’s catalogues or brochures are issued or published for the sole purpose of giving an approximate description of the Products and Services described in them. They will not form part of the TC. Publishing errors, including, but not limited to, typographical errors, having no significant effect on the editorial content or design characteristics of the Products and Services, cannot be considered a reason for repudiation of the contracts, as the case may be, unless they unduly prejudice the Client.

The Client is not permitted to copy, store, reproduce, distribute, or transmit any part of the Products, whether in hard copy or electronic form, unless the Client has a valid court order requiring such an amount equal to such deduction to be paid to Elsevier from the Client. From the due date of the invoice to the date of payment in full, interest at the rate of 1% may be charged to the Client on a monthly basis for any sums outstanding, together with any costs incurred by Elsevier.
