ESMO Real World Data and Digital Oncology

Overview

ESMO Real-World Data and Digital Oncology is the European Society for Medical Oncology’s latest peer-reviewed open access journal. It is dedicated to publishing high-quality data science and educational content on the transformation of oncology care with real-world evidence and digital technologies that physicians can trust and understand. The journal will publish innovative research that provides actionable insights from real-world data sources and digital devices, such as generalizable observational and health services research, clinical informatics solutions, algorithm-powered diagnostics, and decision support systems and direct-to-patient mobile applications. Main focuses of interest include: disease characterization, rare and under-represented populations in clinical trials, head-to-head comparative effectiveness, unmet needs and gaps in access or care delivery, resource utilization and health economics, post-marketing treatment optimization and tolerability and patients' outcomes and preferences. In addition, studies that evaluate the net benefit of incorporating artificial intelligence applications in clinical practice, or explore how the human aspect of medicine, relations between patient and physician, may be affected by the increasing use of technology in routine practice. With an international editorial board of experts and key opinion leaders, the journal will support multiple stakeholders as they engage with digital solutions and information systems to solve complex cancer problems. Providing essential reading for all stakeholders we will publish original research, reviews, editorials, perspectives, correspondence, and news. The journal will provide balanced implementation guidance, training, and resources to ensure appropriate use of real-world data and digital technologies, at the highest methodological standards. ESMO Real-World Data and Digital Oncology aims to operate a fast submission process with continuous publication online, to ensure that timely, up-to-date research is available worldwide and adheres to a rigorous and transparent peer review process.

2. Applicability These terms and conditions shall apply to all offers, proposals and agreements made between Elsevier and any third party or its agent ("the Client") relating to the products and/or services of Elsevier ("the Products and/or Services") and, along with the relevant Elsevier order acknowledgement, shall form the entire agreement between the parties (the "TC"). Upon acceptance of this TC, Elsevier shall have the right to sell to third parties any unsold or unfulfilled capacity. Upon acceptance of this TC by the Client, the Client acknowledges and agrees that the purchase of the Products and/or Services is subject to the terms and conditions set forth herein. The Client shall at all times strictly comply with all applicable laws, ordinances, codes, regulations, and other Applicable Laws relevant to its duties, obligations and performance under this TC. All such additional terms and conditions in this TC as are not inconsistent with the Applicable Laws shall be governed by and construed in accordance with the Applicable Laws of the country where the Products and/or Services are sold or delivered. The Client further agrees that the Products and/or Services shall be delivered by Elsevier or a third party for the benefit of the Client, the Client acknowledges that all risks of damage to, or loss of, or destruction of any Product or any part thereof shall pass to the Client upon delivery and therefore the Product shall be deemed to be delivered to the Client of aforesaid circumstances in accordance with the terms and conditions of this TC to the Client who has exceeded its current credit limit. Legal and beneficial title in any tangible Products supplied by Elsevier to the Client shall remain with Elsevier until the Client has cleared all sums due to Elsevier in respect of the Products and all other sums which are or which may become due to Elsevier from the Client on account of any other matter. The Client may not sell the Products before delivery at the Client's own risk and at its sole cost and expense. The Client further agrees that such payments are permissible under the Applicable Laws. The Client further agrees that he/she will not accept any payment on the Products and/or Services from Elsevier for the account and use of no more than one identified institutional subscriber as principal or, if the agent is permitted to order personal subscriptions in a representative capacity, for the account and use of no more than one identified eligible individual subscriber for personal use.
