## Editorial Overview

#### **Editorial Direction**

CHEST is the official publication of the American College of Chest Physicians. Each month, it features cutting-edge, clinically-relevant, original research in the multidisciplinary specialties of chest medicine, such as pulmonology, critical care, sleep medicine, thoracic surgery, transplantation, airways disease, and more. CHEST is committed to advancing the care of patients served by multidisciplinary clinicians across pulmonary, critical care, and sleep medicine through the publication of clinical research relevant to today's challenges and reflecting advances on the horizon. Emphasis is placed upon involvement among related disciplines such as: pulmonology, internal medicine, sleep medicine, surgery, anesthesiology, physiology, allergy, and radiology.

#### Aims and Scope

CHEST is committed to advancing the care of patients served by multidisciplinary clinicians across pulmonary, critical care, and sleep medicine through the publication of clinical research relevant to today's challenges and reflecting advances on the horizon. To provide context in a fast-changing landscape, CHEST also incorporates review articles, offers commentaries, and fosters debate on emerging controversies. CHEST applies strict peer review standards to ensure the scientific rigor and publishes all content online within two weeks of acceptance.

Respiratory, pulmonary, critical care and sleep medicine professionals

## Journal Website Banner Advertising

#### Maximize your reach by adding a digital advertising campaign to your print schedule.

The Elsevier online journal platform offers a variety of advertising banner options and customizable solutions, enabling advertisers to target specific HCPs with a single campaign. Digital advertising delivers your message and drives traffic to your website while users are actively seeking and viewing specialty content. Metrics are sent on a monthly basis.

#### **Banner Positions**

Desktop/Tablet	
Leaderboard (top)	728 x 90
Skyscraper (right rail)*	160 x 600
Rectangle (right rail)*	300 x 250
Mobile	
Leaderboard (top)	320 x 50
Rectangle (within content)*	300 x 250

#### **Sticky Banners**

Leaderboard remains in place during scroll for 8 seconds. and Skyscraper on ROS pages remains in place on right side throughout scroll.

 $^\dagger Monthly$  averages based upon the period of July 2022 to June 2023.

## Table of Contents Email (eTOC) Advertising

#### Monthly eTOCs

Each week, registered subscribers receive the Table of Contents email (eTOC) for CHEST providing a preview of what's coming in their next issue. Metrics are sent on a monthly basis.

eTOCs deliver increased reach and visibility for your brand, providing a strong and tactical component to your overall marketing strategy.

## **Reprint Capabilities**

## The Power of Credibility

#### Reach targeted HCPs with original, authoritative content

Whether you are launching a new product, trying to increase sales of existing products or repositioning established ones, Elsevier article reprints provide an exclusive and distinctive way to promote your brand using the strengths of our multimedia programs and your published work.

#### Hard Copy Reprints

#### **Customizable Options**

Printing

- Article translation
- Inclusion of: company/brand logo, prescribing information & ISI and inventory number

#### Packaging

- Resizing: Pocket/Digest
- Article Collections/Supplements
- Shrink-wrapping
- Polybagging—Outserts provided to targeted HCPs

## Reprint Capabilities (continued)

#### ePrints

Educate HCPs on the latest treatment options, or help to drive a change in existing prescribing habits by using ePrints - encrypted, electronic copies of PDF articles that you can distribute by email, post on a website or use in Rep e-detailing.

#### **Multicopy Prints**

Elsevier ePrints are created with official journal covers. Any article available in Elsevier's digital archive can be made into an ePrints PDF valid for 12 months.

#### **Mobile ePrints**

Downloadable ePrints designed for use on mobile and tablet devices. Can be used for email blasts and on-the-go consumption - perfect for Rep e-detailing.

#### QR Codes

Integrate QR codes into your advertising to allow quick mobile access to your reprint.

#### **Order Reprints Online**

MedReprints is an online portal to order Elsevier and non-Elsevier published journal article reprints. Visit us at <u>medreprints.com</u> where selecting and ordering your reprints is simple:

- Search for articles by journal, specialty, keyword, and more
- Receive your quote online in 24 hours or less
- Place your order online, and track the production process

#### Print Ad Specifications

#### File Format

PDF or PDF/X-1a compliant files, saved as PDF version 1.3. Transparencies within the supplied PDF(s) will be warned. The transparent elements contained in your file(s) must be converted within the native layout application or flattened in Acrobat using the High Resolution Flattener Presets to avoid overprint issues. Saving your PDF to Acrobat 4 (PDF 1.3) compatibility will ensure transparent elements are flattened. If the ad contains spot colors that are not converted to process colors (CMYK) before flattening, overprint and/or trap issues may occur.

The following layout applications yield the optimum results for creating a print-compliant PDF and are expected to follow all requirements listed in this document.

- InDesign version 2 or higher (CS preferred)
- QuarkXPress version 6.5 or higher

#### Additional costs may apply if problems are encountered.

Note: When using Adobe Illustrator it is preferred to have all fonts converted to outline/paths, and files submitted as EPS files.

#### Images

All high-resolution images and fonts must be included. TIFF & EPS files must conform to the following minimum resolution specifications:

- Grayscale and Color images: 300 dpi
- Combination Grayscale and Color images: 500-900 dpi
- Line art (Bitmap) images: 900-1200 dpi

Higher image resolutions are acceptable as they exceed the minimum requirements, but in some cases unnecessary resolution will be discarded to achieve smaller file sizes.

#### Fonts

Use of PostScript Type 1 fonts is encouraged. Include fonts for any embedded graphics. DO NOT use Type 3 or Multiple Master fonts. Avoid using menu-stylized fonts, Macintosh "city" fonts (Chicago, Geneva, etc.) and Microsoft Outlook fonts (Tahoma, Impact, etc.).

#### Page Layout

Regardless of the file format supplied, all ads must conform to the following specifications:

- Final size must meet journal trim size and include 1/8" bleed image on all four sides.
- Files will include trim marks with a minimum  $3/16^{\prime\prime}$  offset
- Supply as single page files only
- Right Reading, Portrait Mode, 100% size, No rotation.
- No content is to be within 1/4'' of all trim edges.

Note: Failure to meet insert specifications & packaging guidelines may result in additional charges and/or delays with insertion.

### specifications **Print Media** (continued)

- All fonts and graphics must be either embedded or included with the files and conform to the format type listed above. Images must also conform to the specifications above for minimum image resolution.
- All color ads should be supplied as composite files.
- Reverse type should be no less than 6pt. Fine lettering (thin lines, serifs) should be restricted to one color.
- Embedded images should not be scaled, cropped/ masked or rotated within the page layout application but instead should be manipulated in a proper image editing program (ex. Photoshop) and then imported into the page layout program at proper size and position.
- DO NOT nest EPS files within EPS files.
- All lines and line art images should be of a minimum 1/3 pt thickness (1/2 pt for reverses) at final size to reproduce effectively on press.
- Crop marks and SWOP color bars must be included and positioned 1/2" outside trim.

#### **Color Space**

All color images and files are to be supplied as CMYK with a Total Area Coverage (TAC) not to exceed 300% for the darkest area of an image. Files supplied as RGB will be automatically converted to CMYK.

#### Spot Colors

Spot colors are to be identified using the standard Pantone naming convention and not a custom color such as "Dark Blue." PMS colors will be converted to process unless otherwise specified. When using both art and layout programs be sure spot color naming is consistent in all applications (ex. Do not define both PMS 201CV and PMS 201CVC).

NOTE: Any non-intended spot colors will be converted to CMYK.

#### **Trapping and Screening**

Overprints and knockouts should be defined. Files are NOT to be trapped or prescreened. Our Prepress service provider will use industry recognized trapping software to auto-trap your files for optimum performance and reproduction on press and will apply the appropriate screening. Note that these trap settings may force small text and fine graphics to overprint to hold registration on press.

#### Proofs

All color ads require a SWOP-certified contract color proof, which includes a SWOP proofing bar or a GATF proof comparator. All proofs must be produced from the final file submitted. Proofs must be imaged at 100% scale and in accordance with SWOP specifications. For a list of current SWOP-approved proofs visit www.swop.org/certification/ systemlist.asp. Proofs generated from any of the approved devices are acceptable. Desktop inkjet printer proofs do not meet SWOP specifications. Elsevier cannot guarantee color match unless acceptable proof is provided. If a contract color proof is not supplied Elsevier will run to standard ink densities and dot gains. Revised proofs must be supplied whenever a text or design change is made. Any alteration to a file will require output of a new proof at cost to the customer. All black & white or grayscale ads supplied require 100% size lasers for confirmation of ad content.

#### Delivery

Submit PDF ad files to Elsevier ad portal at <u>www.ads4els.com</u>

#### **Conformance to Specs**

Variances from the above specifications may not yield results that conform to Elsevier quality control standards.

Note: Failure to meet insert specifications & packaging guidelines may result in additional charges and/or delays with insertion.

## Print Media (continued)

#### **Insert Requirements:** 8-3/8" x 11-1/8" 2-page insert 16-3/4" x 11-1/8", furnish folded to 4-page insert 8-3/8" x 11-1/8" Trimming 1/8" trimmed off top, bottom, gutter and face. Keep all live matter 1/4" from all trim edges. Note that a $\frac{1}{2}$ " safety must also be applied to both sides of the gutter/spine. Insert Stock For 2 page 80# text preferred; 4 to 8 Weight pages - 60# text minimum; 80# text maximum. Inserts that do not meet these minimum/maximum weights must be sent to the publisher two weeks prior to advertising close date for evaluation and print compatibility. Closing Date for Same as ad space closing **Booking Inserts** Insert Delivery See Insert due dates. All inserts must Date be submitted to Publisher for approval of stock, design and other mechanical specifications. Copy of insert must accompany insertion order. Insert Quality Contact Ad Sales Services. For conference copy distribution, contact Ad Sales

#### **Insert Packing & Shipping Instructions**

Services.

Inserts packed one up, folded if four pages, flat if two pages. All inserts must be delivered to the printer in cartons, with journal title, quantity, product & issue date (month/year) clearly marked. If shipping inserts for more than one issue date, inserts must be packed separately and clearly marked indicating journal title, issue date (month/year) and quantity.

#### Insert Shipment Address CHEST Sheridan NH 69 Lyme Road Hanover, NH 03755 United States Attn: Elsevier Team

#### Disposition of Reproduction Material

All digital ad files will be held for twelve months only unless otherwise notified. Left over inserts will be held until the issue mails. After issue mailing is completed any unused inserts for that issue will be destroyed unless otherwise indicated on the insertion order. Excess inserts held in storage beyond completion of insertion date will be subject to storage charges.

Note: Failure to meet insert specifications & packaging guidelines may result in additional charges and/or delays with insertion.

## **CHEST Advertising Policy**

The Board of Regents of the American College of Chest Physicians (CHEST) adopted a policy entitled "Guiding Principles for Interactions with Commercial Entities" to help ensure the independence of CHEST's educational, scientific, and charitable activities and to address and minimize actual or perceived conflicts of interest in CHEST's interactions with commercial entities. The "Guiding Principles" document governs CHEST's acceptance of commercial support while maintaining independence and transparency in nine key areas of operation: (1) Charitable Contributions, (2) Educational Grants, (3) Exhibits, (4) Clinical Practice Guideline Development, (5) Advertising, (6) Licensing, (7) Continuing Medical Education, (8) Government Grants, and (9) Foundation Support. This Advertising Policy extends the Guiding Principles with the intent of ensuring adherence to the highest ethical standards of commercial support and to determine the eligibility of products and services for advertising in CHEST print publications and digital products.

#### CHEST's Advertising Policy is as follows:

- 1. Acceptance of advertising is neither a guarantee nor an endorsement of any product or service by CHEST.
- 2. Advertising content must be easily distinguished from editorial content.
- 3. The fact that a product, service, or company has been advertised in a CHEST publication shall not be referred to in collateral advertising.
- 4. In accordance with ACCME regulations, advertisements regardless of their content— may not be juxtaposed with, appear in line with, appear adjacent to, or be linked to continuing medical education content.
- 5. Advertising is subject to review, and CHEST reserves the right to refuse any advertising.
- 6. Advertising must comply with all applicable laws and regulations.
- 7. CHEST may, on a case-by-case basis, accept advertisements unrelated to medical products or the medical community (eg, automobiles, luxury goods).

- 8. CHEST will not accept advertisements for pharmaceuticals, biomaterials, or medical devices not cleared for marketing in the U.S. by the Food and Drug Administration (FDA).
- 9. Tobacco products, alcoholic beverages, and recreational drugs may not be advertised.
- 10.Advertisements for dietary supplements and vitamin preparations are not eligible unless the safety and efficacy of the product have been reviewed and approved by the FDA.
- 11. CHEST does not accept content intended to mimic journal articles or other CHEST editorial content.
- 12. Sponsored content must contain the label "Advertising Feature" at both the top and bottom of print pages in a font size at least one-half the largest font size used in the content. In electronic formats, sponsored content must be easily distinguishable from non-sponsored content in color, font, layout, or other prominent ways.
- 13. CHEST does not accept the placement of notices related to class action lawsuits.
- 14. All online advertisements will be clearly marked as advertisements by including the word "advertisement".
- 15. In online advertising, roadblocks (or takeovers), in which a single advertising campaign is the only brand on a page or website, are prohibited, except when there are two or fewer advertising positions on a page.
- 16. CHEST will not accept advertisements that, in the sole opinion of CHEST, make unsubstantiated claims of therapeutic benefit for a particular product(s). CHEST may require an advertiser to provide valid, reliable scientific data to support any claims made in an advertisement.
- 17. CHEST reserves the right to reject any advertisement or sponsored content that it deems unacceptable.

<u>Elsevier's Terms and Conditions of Supply</u> shall apply to all offers, proposals and agreements relating to Elsevier's products and services.
