2024 MEDIA KIT // JACC: HEART FAILURE

◀ BACK TO CONTENTS

Editorial Overview

Editorial Direction

JACC: Heart Failure publishes the most important findings on the pathophysiology, diagnosis, treatment, and care of heart failure patients. The goal of the *Journal* is to improve our understanding of the disease, clinical trials, clinical outcomes, and advances in therapies through timely, insightful scientific communication. The *Journal* will embrace interdisciplinary relationships with neuroscience, pulmonary medicine, nephrology, electrophysiology, and surgery as they relate to heart failure. Articles concerning pharmacogenetics, biomarkers, and metabolomics will also be published.

#10 Impact Factor among all 141

Editor-in-Chief

Biykem Bozkurt, MD, PhD, FACC

Dr. Bozkurt, an advanced heart failure specialist, previously served as one of the heart failure section editors for *JACC* and is a past chair of the ACC's Heart Failure and Transplant Member Section and Leadership Council. She serves as the Mary and Gordon Cain Chair and professor of medicine at Baylor College of Medicine (Houston, TX), as well as director of the Winters Center for Heart Failure Research, associate director of the Cardiovascular Research Institute, associate provost of faculty affairs, senior associate dean for faculty development, and vice-chair of medicine at Baylor. Dr. Bozkurt is a past president of the Heart Failure Society of America.

Bozkurt serves as the Mary and Gordon Cain Chair and professor of medicine at Baylor College of Medicine in Houston, as well as director of the Winters Center for Heart Failure Research, associate director of the Cardiovascular Research Institute, associate provost of faculty affairs, senior associate dean for faculty development and vice-chair of medicine at Baylor. Bozkurt is a past president of the Heart Failure Society of America.

Bozkurt joins the growing number of women at the helm of *JACC Journals*, including Julia Grapsa, MD, PhD, FACC (*JACC: Case Reports*), Bonnie Ky, MD, MSCE, FACC (*JACC: CardioOncology*) and Candice Silversides, MD (*JACC: Advances*). She will build upon the legacy of the previous editor, Christopher M. O'Connor, MD, MACC, who has served in his role since the journal's inception. As editor-in-chief, O'Connor has overseen the successful publication of nine volumes and has grown the journal to be recognized as one of the top 11 English-language cardiovascular journals worldwide with an Impact Factor of 12.

*Clarivate Analytics, 2022.

Print Rates

Reach all ACC members involved in heart failure by advertising full run in JACC.

Below are the JACC full run print rates for 2024; however, print advertising reaching ACC members, including those involved in heart failure, is available in JACC.

Black & White Rates

Frequency	Full Page	1/2 Page	1/4 Page
1x	\$7,460	\$4,995	\$3,290
6x	\$7,375	\$4,905	\$3,130
12x	\$7,255	\$4,845	\$3,095
24x	\$7,170	\$4,670	\$3,000
36x	\$7,005	\$4,550	\$2,895
48x	\$6,760	\$4,505	\$2,815
60x	\$6,725	\$4,325	\$2,755
72x	\$6,575	\$4,285	\$2,680
96x	\$6,405	\$4,110	\$2,585
120x	\$6,295	\$4,010	\$2,485
144x	\$6,165	\$3,940	\$2,425
192x	\$6,020	\$3,895	\$2,390

Color Rates

Standard Color	\$1,435
Matched Color	\$1,660
4 Color	\$3,520

Premium Positions

Cover 4	50% B/W page rate
Cover 2	50% B/W page rate
Opposite TOC	25% B/W page rate

Cover Tips

\$31,500 Net

Client Provided (standard size, 2-sided); please contact your sales representative for larger unit pricing.

Outserts

\$32,100 Net

Client Provided (Up to 4 pages); please contact your sales representative for larger unit pricing.

Earned Rates

Rates are based on the total units run in a calendar year (i.e., 6 full pages and 6 half pages earn 12x rate). Space purchased by a parent company and its subsidiaries is combined. Only paid ads count toward frequency.

Combined Frequency

Ad pages in *JACC* and *JACC: Clinical Electrophysiology* are combined to determine frequency.

Agency Commission

15%

Dual Responsibility

Advertisers agree to accept “dual responsibility” for payment to the publisher if the advertiser’s agency does not remit payment within 90 days of the invoice date.

Inserts

Furnished inserts billed at B&W space rate, plus an additional \$800 commissionable production charge.

*All ads must go through an approval process.

Journal Website Banner Advertising

Maximize your reach by adding a digital advertising campaign to your print schedule.

The JACC Journal platform offers a variety of advertising banner options and customizable solutions, enabling advertisers to target specific healthcare professionals with a single campaign. Digital advertising delivers your message and drives traffic to your website while users are actively seeking and viewing specialty content. Metrics are sent on a monthly basis.

Reprint Capabilities

The Power of Credibility

Reach targeted HCPs with original, authoritative content

Whether you are launching a new product, trying to increase sales of existing products or repositioning established ones, Elsevier article reprints provide an exclusive and distinctive way to promote your brand using the strengths of our multimedia programs and your published work.

Hard Copy Reprints

Customizable Options

Printing

- Article translation
- Inclusion of: company/brand logo, prescribing information & ISI, and inventory number

Packaging

- Resizing: Pocket/Digest
- Article Collections/Supplements
- Shrink-wrapping
- Polybagging—Outsets provided to targeted HCPs

ELSEVIER

Reprint Capabilities (cont'd)

ePrints

Educate HCPs on the latest treatment options, or help to drive a change in existing prescribing habits by using ePrints - encrypted, electronic copies of PDF articles that you can distribute by email, post on a website or use in Rep e-detailing.

Multicopy Prints

Elsevier ePrints are created with official journal covers. Any article available in Elsevier's digital archive can be made into an ePrints PDF valid for 12 months.

Mobile ePrints

Downloadable ePrints designed for use on mobile and tablet devices. Can be used for email blasts and on-the-go consumption - perfect for Rep e-detailing.

QR Codes

Integrate QR codes into your advertising to allow quick mobile access to your reprint.

Order Reprints Online

MedReprints is an online portal to order Elsevier and non-Elsevier published journal article reprints.

Visit us at medreprints.com where selecting and ordering your reprints is simple:

- Search for articles by journal, specialty, keyword, and more
- Receive your quote online in 24 hours or less
- Place your order online, and track the production process

ELSEVIER

A Digital Reprint is a copy of an article in PDF format delivered as a hyperlink, which can be posted online, on a tablet, or disseminated via email.

Keep live matter 1/4" from all trim edges.

Binding	Perfect; jogs to head
Printing process	Web
Halftone screen	Cover, 150 line screen Text, 150 line screen

Print Ad Specifications

File Format

PDF or PDF/X-1a compliant files, saved as PDF version 1.3. Transparencies within the supplied PDF(s) will be warned. The transparent elements contained in your file(s) must be converted within the native layout application or flattened in Acrobat using the High Resolution Flattener Presets to avoid overprint issues. Saving your PDF to Acrobat 4 (PDF 1.3) compatibility will ensure transparent elements are flattened. *If the ad contains spot colors that are not converted to process colors (CMYK) before flattening, overprint and/or trap issues may occur.*

The following layout applications yield the optimum results for creating a print-compliant PDF and are expected to

follow all requirements listed in this document.

- InDesign version 2 or higher (CS preferred)
- QuarkXPress version 6.5 or higher

Additional costs may apply if problems are encountered.

Note: When using Adobe Illustrator it is preferred to have all fonts converted to outline/paths, and files submitted as EPS files.

Images

All high-resolution images and fonts must be included. TIFF & EPS files must conform to the following minimum resolution specifications:

- Grayscale and Color images: 300 dpi
- Combination Grayscale and Color images: 500-900 dpi
- Line art (Bitmap) images: 900-1200 dpi

Higher image resolutions are acceptable as they exceed the minimum requirements, but in some cases unnecessary resolution will be discarded to achieve smaller file sizes.

Fonts

Use of PostScript Type 1 fonts is encouraged. Include fonts for any embedded graphics. DO NOT use Type 3 or Multiple Master fonts. Avoid using menu-stylized fonts, Macintosh "city" fonts (Chicago, Geneva, etc.) and Microsoft Outlook fonts (Tahoma, Impact, etc.).

Page Layout

Regardless of the file format supplied, all ads must conform to the following specifications:

- Final size must meet journal trim size and include 1/8" bleed image on all four sides.
- Files will include trim marks with a minimum 3/16" offset
- Supply as single page files only

Note: Failure to meet insert specifications & packaging guidelines may result in additional charges and/or delays with insertion.

Print Media (continued)

- Right Reading, Portrait Mode, 100% size, No rotation.
- No content is to be within 1/4" of all trim edges.
- All fonts and graphics must be either embedded or included with the files and conform to the format type listed above. Images must also conform to the specifications above for minimum image resolution.
- All color ads should be supplied as composite files.
- Reverse type should be no less than 6pt. Fine lettering (thin lines, serifs) should be restricted to one color.
- Embedded images should not be scaled, cropped/masked or rotated within the page layout application but instead should be manipulated in a proper image editing program (ex. Photoshop) and then imported into the page layout program at proper size and position.
- DO NOT nest EPS files within EPS files.
- All lines and line art images should be of a minimum 1/3 pt thickness (1/2 pt for reverses) at final size to reproduce effectively on press.
- Crop marks and SWOP color bars must be included and positioned 1/2" outside trim.

Color Space

All color images and files are to be supplied as CMYK with a Total Area Coverage (TAC) not to exceed 300% for the darkest area of an image. Files supplied as RGB will be automatically converted to CMYK.

Spot Colors

Spot colors are to be identified using the standard Pantone naming convention and not a custom color such as "Dark Blue." PMS colors will be converted to process unless otherwise specified. When using both art and layout programs be

sure spot color naming is consistent in all applications (ex. Do not define both PMS 201CV and PMS 201CVC).

NOTE: Any non-intended spot colors will be converted to CMYK.

Trapping and Screening

Overprints and knockouts should be defined. Files are NOT to be trapped or prescreened. Our Prepress service provider will use industry recognized trapping software to auto-trap your files for optimum performance and reproduction on press and will apply the appropriate screening. Note that these trap settings may force small text and fine graphics to overprint to hold registration on press.

Proofs

All color ads require a SWOP-certified contract color proof, which includes a SWOP proofing bar or a GATF proof comparator. All proofs must be produced from the final file submitted. Proofs must be imaged at 100% scale and in accordance with SWOP specifications. For a list of current SWOP-approved proofs visit www.swop.org/certification/systemlist.asp. Proofs generated from any of the approved devices are acceptable. Desktop inkjet printer proofs do not meet SWOP specifications. Elsevier cannot guarantee color match unless acceptable proof is provided. If a contract color proof is not supplied Elsevier will run to standard ink densities and dot gains. Revised proofs must be supplied whenever a text or design change is made. Any alteration to a file will require output of a new proof at cost to the customer. All black & white or grayscale ads supplied require 100% size lasers for confirmation of ad content.

Delivery

Submit PDF ad files to Elsevier ad portal at www.ads4els.com

Note: Failure to meet insert specifications & packaging guidelines may result in additional charges and/or delays with insertion.

Print Media (continued)

Conformance to Specs

Variances from the above specifications may not yield results that conform to Elsevier quality control standards.

Insert Requirements:

2-page insert	8-1/4" x 11"
4-page insert	16-1/2" x 11", furnish folded to 8-1/4" x 11"
Trimming	1/8" trimmed off top, bottom, gutter and face. Keep all live matter 1/4" from all trim edges. Note that a 1/2" safety must also be applied to both sides of the gutter/spine.
Insert Stock Weight	For 2 page 80# text preferred; 4 to 8 pages – 60# text minimum; 80# text maximum. Inserts that do not meet these minimum/maximum weights must be sent to the publisher two weeks prior to advertising close date for evaluation and print compatibility.
Closing Date for Booking Inserts	Same as ad space closing
Insert Delivery Date	See Insert due dates. All inserts must be submitted to Publisher for approval of stock, design and other mechanical specifications. Copy of insert must accompany insertion order.
Insert Quality	Contact Ad Sales Services. For conference copy distribution, contact Ad Sales Services.

Insert Packing & Shipping Instructions

Inserts packed one up, folded if four pages, flat if two pages. All inserts must be delivered to the printer in cartons, with journal title, quantity, product & issue date (month/year) clearly marked. If shipping inserts for more than one issue date, inserts must be packed separately and clearly marked indicating journal title, issue date (month/year) and quantity.

Insert Shipment Address

Publishers Press

JACC: Heart Failure (Issue Date)
 13487 South Preston Highway
 Lebanon Junction, KY 40150
 Attn: Elsevier Team

Disposition of Reproduction Material

All digital ad files will be held for twelve months only unless otherwise notified. Left over inserts will be held until the issue mails. After issue mailing is completed any unused inserts for that issue will be destroyed unless otherwise indicated on the insertion order. Excess inserts held in storage beyond completion of insertion date will be subject to storage charges.

Note: Failure to meet insert specifications & packaging guidelines may result in additional charges and/or delays with insertion.
