

The collage features three main elements:
 

- Desktop Website Screenshot:** Shows the JACC.org homepage with a search bar, navigation menu, and a 'Latest from the JACC Journals' section listing various articles such as 'Psychological Safety in Cardiovascular Fellowship Training' and 'Outcomes of Transcatheter Valve Replacement in Asymptomatic or Minimally Symptomatic Aortic Stenosis'.
- Smartphone Display:** Shows the mobile version of the JACC website, highlighting a 'Health Equity' article and a 'Call for Papers: Health Equity' notice.
- Issue Cover:** A large graphic of the November 14, 2023 issue cover (Volume 52, Number 20). The cover lists 'ORIGINAL INVESTIGATIONS' (e.g., 'Association of Age and Sex With Use of Transcatheter Aortic Valve Replacement in France'), 'THE PRESENT AND FUTURE' (e.g., 'JACC STATE-OF-THE-ART REVIEW: Imaging Methods for Evaluation of Chronic Aortic Regurgitation in Adults'), 'LEADERSHIP PAGE', 'LETTERS', and 'COMING SOON'.

ACC Member Demographics\*

## Affiliation

JACC is an official journal of the American College of Cardiology (ACC). All members of the ACC receive access to JACC (print and online) as part of their College membership. By joining the College, cardiovascular professionals show their peers and patients their commitment to provide only the highest quality care to their patients. ACC membership provides all members of the cardiovascular care team access to education on the latest advances in the field and care guidelines through ACC.org, subscriptions to scientific and clinical publications including JACC and its sister journals, point of care tools and more.

# Editorial Overview

## Editorial Direction

*The Journal of the American College of Cardiology (JACC)* seeks to publish the highest quality peer-reviewed articles highlighting all aspects of cardiovascular disease, including original clinical studies, experimental investigations with clear clinical relevance, state-of-the-art review articles, and viewpoints. As an official publication of the American College of Cardiology, the Journal publishes the abstracts of the Annual Scientific Session of the American College of Cardiology as well as practice guidelines, appropriate use criteria, consensus documents, and other clinical practice and scientific statements developed and endorsed by the College. JACC's Impact Factor is 24.4.

Established	1983

## Editor-in-Chief

Valentín Fuster, MD, PhD, serves The Mount Sinai Hospital as Physician-in-Chief, as well as Director of Mount Sinai Heart, the Zena and Michael A. Wiener Cardiovascular Institute and the Marie-Josée and Henry R. Kravis Center for Cardiovascular Health. He is also the Richard Gorlin, MD/Heart Research Foundation Professor, Icahn School of Medicine at Mount Sinai. Dr. Fuster was the President of Science and is now the General Director of the Centro Nacional de Investigaciones Cardiovasculares Carlos III (CNIC) in Madrid, Spain and also Chairman of the SHE Foundation (Science for Health and Education). After qualifying in medicine at the University of Barcelona and undergoing a fellowship in cardiology at the University of Edinburgh in Scotland, Dr. Fuster continued his studies in the United States. He was professor in Medicine and Cardiovascular Diseases at the Mayo Medical School, Minnesota and at the Medical School of Mount Sinai Hospital, New York, and from 1991 to 1994 was full professor of Medicine at Harvard Medical School in Boston. In 1994 he was named director of the Cardiovascular Institute at Mount Sinai, a post he has combined since 2012 with that of Physician-in-Chief of the Hospital. Dr. Fuster is an author on more than 900 scientific articles in international medical journals, and has published two leading books on clinical cardiology and research: *The Heart and Atherothrombosis* and *Coronary Artery Disease*.

# Table of Contents Email (eTOC) Advertising

## Monthly eTOCs

Each week, registered subscribers receive the Table of Contents email (eTOC) for the *Journal of the American College of Cardiology*, providing a preview of what’s coming in their next issue. Metrics are sent on a weekly basis.

eTOCs deliver increased reach and visibility for your brand, providing a strong and tactical component to your overall marketing strategy.

Banner Positions		Metrics*

# NEW MashupMD eNewsletter

JACC is the #1 media used by cardiologists, reaching 89% of the cardiology universe!\*

## Best of JACC Cardiovascular Interventions Articles Monthly e-Newsletter

Every month MashupMD sends out the Best of JACC Articles e-Newsletter to over 28,000 HCPs including cardiologists and other HCPs with an interest in cardiology.

The articles represent the top five most popular JACC articles on social media published within the last month.

### What is MashupMD?

MashupMD is the first of its kind platform, delivering the user a curated and custom Twitter feed of headlines relevant to their interests and based upon the reading habits of trusted medical colleagues.

### Benefits:

- Allows clients to have a presence on social media without the regulatory restrictions
- Provides the users only posts with external links and headlines, eliminating distracting comments
- Physician-Level Data (PLD) metrics are also available

### e-Newsletter Schedule

The e-newsletter is sent out the first week of the month

### Advertising Options

Top and Middle Box: 300 x 250

*Native Advertising slots also available*

### Metrics

US Distribution 28,000+

*Includes cardiologists and HCPs with an interest in cardiology*

### Rate

**Option #1 (2) banner ad slots**

\$5,250 per email for 100% SOV

**Option #2 (1) banner ad slot + (1) native advertisement**

\$6,825 per email for 100% SOV

PLD: Additional charge of \$1,000

### Asset Deadline

Banner creatives are due 20th of the month prior to deployment.

# JACC Podcast

## Be in earshot of the JACC Podcast audience

JACC keeps clinicians up to date on the most important science emerging in clinical and translational cardiology. Each week, **Valentin Fuster, MD, PhD, MACC**, renowned editor-in-chief of JACC, records a free podcast with an overview of the weekly edition, plus a short summary of 5-8 separate articles.

- Available on all major podcast aggregators (iTunes, GooglePlay, Overcast, Copicast, Spotify, Stitcher, etc) and on JACC journal website, [www.jacc.org](http://www.jacc.org)
- JACC Podcast is ranked among the top 1% of all podcasts in the world
- Includes a 10-15 second audio preroll advertisement. Text supplied by client. Reviewed, approved, and recorded by JACC/ACC editorial team
- The content of each audio advertisement must adhere to the ACC's policy on advertising
- Podcast Platform: Libsyn

### Metrics

# Reprint Capabilities

## The Power of Credibility

Reach targeted HCPs with original, authoritative content

Whether you are launching a new product, trying to increase sales of existing products or repositioning established ones, Elsevier article reprints provide an exclusive and distinctive way to promote your brand using the strengths of our multimedia programs and your published work.

### Hard Copy Reprints

#### Customizable Options

##### Printing

- Article translation
- Inclusion of: company/brand logo, prescribing information & ISI and inventory number

##### Packaging

- Resizing: Pocket/Digest
- Article Collections/Supplements
- Shrink-wrapping
- Polybagging—Outsets provided to targeted HCPs

ELSEVIER

## ePrints

Educate HCPs on the latest treatment options, or help to drive a change in existing prescribing habits by using ePrints - encrypted, electronic copies of PDF articles that you can distribute by email, post on a website or use in Rep e-detailing.

### Multicopy Prints

Elsevier ePrints are created with official journal covers. Any article available in Elsevier's digital archive can be made into an ePrints PDF valid for 12 months.

### Mobile ePrints

Downloadable ePrints designed for use on mobile and tablet devices. Can be used for email blasts and on-the-go consumption - perfect for Rep e-detailing.

### QR Codes

Integrate QR codes into your advertising to allow quick mobile access to your reprint.

## Order Reprints Online

MedReprints is an online portal to order Elsevier and non-Elsevier published journal article reprints.

Visit us at [medreprints.com](http://medreprints.com) where selecting and ordering your reprints is simple:

- Search for articles by journal, specialty, keyword, and more
- Receive your quote online in 24 hours or less
- Place your order online, and track the production process

A Digital Reprint is a copy of an article in PDF format delivered as a hyperlink, which can be posted online, on a tablet, or disseminated via email.

## Mechanical Specifications

1/2 Vertical	3-1/4" x 10"	3-7/8" x 11"
1/4 Page	3-1/4" x 4-3/4"	3-7/8" x 5-1/4"

Keep live matter 1/4" from all trim edges.

Binding	Perfect; jogs to head
Printing process	Web
Halftone screen	Cover, 150 line screen Text, 150 line screen

## Print Ad Specifications

### File Format

PDF or PDF/X-1a compliant files, saved as PDF version 1.3. Transparencies within the supplied PDF(s) will be warned. The transparent elements contained in your file(s) must be converted within the native layout application or flattened in Acrobat using the High Resolution Flattener Presets to avoid overprint issues. Saving your PDF to Acrobat 4 (PDF 1.3) compatibility will ensure transparent elements are flattened. *If the ad contains spot colors that are not converted to process colors (CMYK) before flattening, overprint and/or trap issues may occur.*

The following layout applications yield the optimum results for creating a print-compliant PDF and are expected to follow all requirements listed in this document.

- InDesign version 2 or higher (CS preferred)

- QuarkXPress version 6.5 or higher

Additional costs may apply if problems are encountered.

Note: When using Adobe Illustrator it is preferred to have all fonts converted to outline/paths, and files submitted as EPS files.

### Images

All high-resolution images and fonts must be included. TIFF & EPS files must conform to the following minimum resolution specifications:

- Grayscale and Color images: 300 dpi
- Combination Grayscale and Color images: 500-900 dpi
- Line art (Bitmap) images: 900-1200 dpi

Higher image resolutions are acceptable as they exceed the minimum requirements, but in some cases unnecessary resolution will be discarded to achieve smaller file sizes.

### Fonts

Use of PostScript Type 1 fonts is encouraged. Include fonts for any embedded graphics. DO NOT use Type 3 or Multiple Master fonts. Avoid using menu-stylized fonts, Macintosh "city" fonts (Chicago, Geneva, etc.) and Microsoft Outlook fonts (Tahoma, Impact, etc.).

### Page Layout

Regardless of the file format supplied, all ads must conform to the following specifications:

- Final size must meet journal trim size and include 1/8" bleed image on all four sides.
- Files will include trim marks with a minimum 3/16" offset
- Supply as single page files only
- Right Reading, Portrait Mode, 100% size, No rotation.
- No content is to be within 1/4" of all trim edges.
- All fonts and graphics must be either embedded or included with the files and conform to the format type

Note: Failure to meet insert specifications & packaging guidelines may result in additional charges and/or delays with insertion.

# Print Media (continued)

listed above. Images must also conform to the specifications above for minimum image resolution.

- All color ads should be supplied as composite files.
- Reverse type should be no less than 6pt. Fine lettering (thin lines, serifs) should be restricted to one color.
- Embedded images should not be scaled, cropped/masked or rotated within the page layout application but instead should be manipulated in a proper image editing program (ex. Photoshop) and then imported into the page layout program at proper size and position.
- DO NOT nest EPS files within EPS files.
- All lines and line art images should be of a minimum 1/3 pt thickness (1/2 pt for reverses) at final size to reproduce effectively on press.
- Crop marks and SWOP color bars must be included and positioned 1/2" outside trim.

## Color Space

All color images and files are to be supplied as CMYK with a Total Area Coverage (TAC) not to exceed 300% for the darkest area of an image. Files supplied as RGB will be automatically converted to CMYK.

## Spot Colors

Spot colors are to be identified using the standard Pantone naming convention and not a custom color such as "Dark Blue." PMS colors will be converted to process unless otherwise specified. When using both art and layout programs be sure spot color naming is consistent in all applications (ex. Do not define both PMS 201CV and PMS 201CVC).

NOTE: Any non-intended spot colors will be converted to CMYK.

## Trapping and Screening

Overprints and knockouts should be defined. Files are NOT to be trapped or prescreened. Our Prepress service provider will use industry recognized trapping software to auto-trap

your files for optimum performance and reproduction on press and will apply the appropriate screening. Note that these trap settings may force small text and fine graphics to overprint to hold registration on press.

## Proofs

All color ads require a SWOP-certified contract color proof, which includes a SWOP proofing bar or a GATF proof comparator. All proofs must be produced from the final file submitted. Proofs must be imaged at 100% scale and in accordance with SWOP specifications. For a list of current SWOP-approved proofs visit [www.swop.org/certification/systemlist.asp](http://www.swop.org/certification/systemlist.asp). Proofs generated from any of the approved devices are acceptable. Desktop inkjet printer proofs do not meet SWOP specifications. Elsevier cannot guarantee color match unless acceptable proof is provided. If a contract color proof is not supplied Elsevier will run to standard ink densities and dot gains. Revised proofs must be supplied whenever a text or design change is made. Any alteration to a file will require output of a new proof at cost to the customer. All black & white or grayscale ads supplied require 100% size lasers for confirmation of ad content.

## Delivery

Submit PDF ad files to Elsevier ad portal at [www.ads4els.com](http://www.ads4els.com)

## Conformance to Specs

Variances from the above specifications may not yield results that conform to Elsevier quality control standards.

## Insert Requirements:

2-page insert	8-1/4" x 11"
4-page insert	16-1/2" x 11", furnish folded to 8-1/4" x 11"

Note: Failure to meet insert specifications & packaging guidelines may result in additional charges and/or delays with insertion.

# Print Media (continued)

Trimming	1/8" trimmed off top, bottom, gutter and face. Keep all live matter 1/4" from all trim edges. Note that a 1/2" safety must also be applied to both sides of the gutter/spine.
Insert Stock Weight	For 2 page 80# text preferred; 4 to 8 pages – 60# text minimum; 80# text maximum. Inserts that do not meet these minimum/maximum weights must be sent to the publisher two weeks prior to advertising close date for evaluation and print compatibility.
Closing Date for Booking Inserts	Same as ad space closing
Insert Delivery Date	See Insert due dates. All inserts must be submitted to Publisher for approval of stock, design and other mechanical specifications. Copy of insert must accompany insertion order.
Insert Quality	Contact Ad Sales Services. For conference copy distribution, contact Ad Sales Services.

## Insert Shipment Address

### Publishers Press

JACC: *Journal of the American College of Cardiology* (Issue Date)  
 13487 South Preston Highway  
 Lebanon Junction, KY 40150  
 Attn: Elsevier Team

## Disposition of Reproduction Material

All digital ad files will be held for twelve months only unless otherwise notified. Left over inserts will be held until the issue mails. After issue mailing is completed any unused inserts for that issue will be destroyed unless otherwise indicated on the insertion order. Excess inserts held in storage beyond completion of insertion date will be subject to storage charges.

### Insert Packing & Shipping Instructions

Inserts packed one up, folded if four pages, flat if two pages. All inserts must be delivered to the printer in cartons, with journal title, quantity, product & issue date (month/year) clearly marked. If shipping inserts for more than one issue date, inserts must be packed separately and clearly marked indicating journal title, issue date (month/year) and quantity.

Note: Failure to meet insert specifications & packaging guidelines may result in additional charges and/or delays with insertion.

## Journal Website Banner Ads

### Creative Sizes

Leaderboard	728 x 90
-------------	----------

Placement: Journal pages. Leaderboard can be configured to load on full-text and abstract pages on journal-by-journal basis only. This is not an automatic placement so a special request must be made. Ad will appear on all abstract and FT pages (for all issues).

Large Rectangle	300 x 250
-----------------	-----------

Placement: Journal pages. Bottom center of the page, displays on HOMEPAGE only (content pages = abstract and full text articles\*)

### Specifications
